ALL HANDS DROWNED.

Steamer Sinks on Lake Superior.

Boat Spaulding Ramm'd by Coal Freighter in a Dense Fog.

Boat of Distress Suddenly Came and Ship Vanishes Completely.

Search for Survivors of Crew of Vessel Is Abandoned as Hopeless.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, June 15.—[Exclusive Dispatch.] The steamer Spaulding of Chicago, owned by Charles F. Spaulding, was sunk in a collision off the coast of Lake Superior, near the mouth of the St. Marys river, on Sunday night.

The Spaulding was going west with a cargo of iron ore when it was rammed by the steamship John F. Spaulding, Jr., west bound for Duluth.

Nothing was heard of the Spaulding until it was seen by the John F. Spaulding, Jr., which immediately sent out distress signals.

The John F. Spaulding, Jr., had been sighted by the Spaulding, and the latter had been seen by the John F. Spaulding, Jr., and the latter had been seen by the Spaulding.

The search for survivors of the Spaulding was abandoned as hopeless.

Rear-Admiral Osterhaus.

ADmiral OSTERHAUS RETIRES.

Popular Officer of the Atlantic Fleet Heads Down His Flag. His Father Still Living in Germany.

(BY FEDERAL WIRELESS LINE TO THE TIMES.)

NEW YORK BUREAU OF THE TIMES, June 15.—[Special Dispatch.] If the sailors of the Atlantic fleet had their way the flag of all battleships and all craft of the fleet would be at half-mast today.

At sunrise Rear Admiral Osterhaus left the active branch of the sea fighting arm of the United States government and was placed on the retired list.

He is one of the most popular officers in the service and his retirement is one of the most mournful things the sailors could think of.

With his leaving the active list the only commander remaining in the service who served under Rear Admiral Evans and Thomas in the historic trip around the world are Rear Admiral William H. H. Southernland, now in command of the Pacific fleet; Charles H. Vreeland, now detailed to the navy department in Washington; and Walter C. Cowley, the present commander of the fleet at Honolulu.

His retirement today comes after forty-eight years in active service. The name Osterhaus will not leave the active list of the navy department, however, for Lieut. Hugo Osterhaus is at present the commander of the torpedo boat destroyer McCall.

Rear Admiral Osterhaus is the son of Brig. Gen. Peter Joseph Osterhaus, who served with distinction in the Civil War. The old army officer is still alive and living in his ancestral home at Duisburg-Rhine, Germany.

FOUR NUNS IN CRASH.

Sister Superior Dies on the Road.

All Pinned Under Automobile as It Turns Turtle Twice at Fresno.

Three Young People Killed in Motorcycle Collision Near Oakland.

Scion of an Old California Family Fatally Crushed Under His Car.

(BY DIRECT WIRE TO THE TIMES.)

FRESNO, June 15.—[Exclusive Dispatch.] As the result of an automobile turning turtle twice on the State highway three miles north of Fresno this afternoon, Sister Alacocca, aged 61, mother superior in the St. Augustine academy for girls here, is dead, Sister Agnola has had her arm amputated and Sister Margaret and Sister Columbo are in the Catholic academy suffering from broken arms, while a Japanese chauffeur is dying in a local sanatorium.

Sister Alacocca's death was instantaneous and was due to a broken neck and internal injuries. The accident was caused by the Japanese chauffeur turning suddenly to one side of the highway. A rear tire exploded, causing the machine to turn over twice. The heavy top saved the sisters from being killed instantly under the car. Opinions vary as to why the chauffeur turned to the side of the road.

One report to the authorities is that a party of young men in a machine speeded up behind the car in which the sisters were riding and the Japanese chauffeur was killed.

The chauffeur was killed by the machine. The heavy top saved the sisters from being killed instantly under the car. Opinions vary as to why the chauffeur turned to the side of the road.

COUPLE WED IN CORRAL.

Cattle Witness Ceremony in Nebraska to Make It Legal.

(BY DIRECT WIRE TO THE TIMES.)

PILGER (Neb.) June 15.—[Exclusive Dispatch.] Because the groom had secured his marriage license in Holt county, and the residence of the parents of the bride is a few feet over the line in Rock county, the marriage of Lloyd Doty and Miss Levia Snyder was performed in the cattle corral. The ceremony in the home had proceeded to almost the end when the brother of the bride called the attention of the minister and others present to the location of the county line. The ceremony was halted, an adjournment taken to the cattle corral, which is wholly in Holt county, and there the service was repeated and completed with the original guests, as well as the live stock of the farm as witnesses. Marriages in Nebraska, to be legal, must be performed in the county in which the license is issued.

Seismic.

MANY KILLED BY EARTHQUAKE.

THOUSANDS ARE HOMELESS IN BULGARIAN CITY.

Disturbances at Tirnova Continued Throughout the Day—Churches, Public and Private Buildings Are Damaged and Multitudes Are Destitute.

(BY CABLE AND A. P. TO THE TIMES.)

SOFIA, June 15.—The earthquakes of yesterday were renewed today in many parts of Bulgaria. Two violent shocks occurred this morning at Cracovia, where much damage was done.

The seismic disturbances at Tirnova continued throughout Saturday and the trembling of the earth had not ceased this morning, that place many people were killed and churches and public and private buildings were damaged. Thousands are homeless and destitute.

FROGS IMITATE WHISTLES.

Officials of Chicago-Dogansport Road at Wits End to Capture Croaker Near Hammond.

(BY FEDERAL WIRELESS LINE TO THE TIMES.)

HAMMOND (Ind.) June 15.—[Special Dispatch.] Officials of the Chicago-Dogansport division of the Panhandle Railway are at their wits end to get rid of two monster bullfrogs making their homes on the English Lake swamps east of Crown Point. They declare the frogs imitate the different engine whistles and fear wrecks may happen owing to their false signals. Engineers say that on several occasions flagsmen have been sent back to protect trains when they heard the four long, deep throated whistles of a monster frog which they took to be the signal from the engineers to come in.

HARKING BACK TO GREELEY.

Colorado to Hold Exposition in New York to Prove Value of His Advice.

(BY FEDERAL WIRELESS LINE TO THE TIMES.)

NEW YORK BUREAU OF THE TIMES, June 15.—[Special Dispatch.] Forty-two years ago Horace Greeley took a colony of sturdy New Yorkers to Colorado. Some of these same New Yorkers now are planning to bring Colorado to this city to show that Greeley knew what he was talking about when he urged the young man in 1871 to "go West."

Back of this plan is the Colorado State Board of Immigration, headed by Gov. Ammons. The new Grand Central Palace has been leased for an exposition to be open during November.

President Wilson and his Cabinet will be the guests of honor at a banquet on the first night. Gov. Ammons will entertain Gov. Sulzer and other Governors. Several New York firms concerned in the development of Colorado are assisting.

WEST VIRGINIA MINERS VOTE TO RENEW STRIKE.

Unionists on Paint and Cabin Creeks Decide at Mass Meeting to Continue Agitation that Has Paralyzed the Coal Fields for a Year Past, and Men Will Not Return to Work Today.

(BY A. P. NIGHT WIRE TO THE TIMES.)

CHARLESTON (W. Va.) June 16.—Word came to Charleston early this morning from various sources that the miners at work in the mines on Paint and Cabin creeks had voted at a mass meeting yesterday to renew the strike which, for a year has convulsed the coal field. According to reports reaching Gov. Hatfield, meetings at Esdale and in the mountains above Kayford, voted not to return to work this morning.

The miners were at work under an agreement framed by Gov. Hatfield and agreed to by miners and operators. Mutterings of discontent had been heard among the miners for several days.

"Information that has just come to me from Paint and Cabin creeks," said S. B. Montgomery, of counsel for the miners, "makes it practically certain that the strike will be renewed this morning. The suspension will be general on Cabin Creek, but I cannot say how far Paint Creek will be affected. Feeling ran high at the meetings yesterday, I understand. Four miners were beaten up by guards on Cabin Creek yesterday and the men are very indignant."

"The operators have failed to live up to the agreement proposed by Gov. Hatfield, which provided that the strikers were to be taken back to work without discrimination."

"There is little chance to reach a vessel on the shore of Lake Superior."

CREW NUMBERS SIXTEEN MEN.

(BY A. P. NIGHT WIRE TO THE TIMES.)

CHICAGO, June 15.—The Jesse Spaulding carried a crew of sixteen men. Local harbor officials declared tonight that the chances were the Spaulding had sunk.

"If the Spaulding were not in sight when the fog lifted, it probably went down, and if no small boats were seen, all hands probably went with it," said the harbor master at South Chicago, where the Spaulding frequently docked.

"There is little chance to reach a vessel on the shore of Lake Superior."

WORLD WAR ON TRUST.

Three Continents in Beef Fight.

Argentina Joins Australia to Capture the American Meat Market.

Tariff, Panama Canal, War in Mexico Big Factors in the Campaign.

Independent Producers Will Make Common Cause With Invaders.

(BY FEDERAL WIRELESS LINE TO THE TIMES.)

NEW YORK BUREAU OF THE TIMES, June 15.—[Special Dispatch.] A world-wide war between the meat trust on one hand and independent packers and foreign producers on the other is imminent and the rich market of the United States is to be the prize of the victor. Incidentally such a war, while it lasted, would mean a temporary and great reduction in the price of meat.

Here are the conditions which confront packers of the United States and which constitute important factors in the attack:

The tariff proposed by the Democratic Congress which will greatly reduce the duty now imposed on meat imports.

The tremendous decrease in the number of cattle now being raised for market on this continent.

Lack of grazing space necessary to the production of a supply sufficient to meet the ever-increasing demand for meat in this country. The great ranges of a few years back are being rapidly cut into farms.

An insufficient supply of feed for the cattle which cannot be turned out to graze.

Great packing plants erected at much expense which the shortage of stock is threatening with idleness.

The evident intention of Argentine and Australian packers who are not affiliated with American concerns, to combine for an invasion of the American market as is already being done in Pacific Coast distributing centers.

The Panama Canal, with its chances for quicker transportation, offered to shippers from Argentina to the Pacific Coast and from Australia to the Atlantic ports.

The revolution in Mexico, which has set the industry in that country so far back that it will not recover in ten years.

Restless independents who are stirred to unwonted activity by the fear that the biggest concerns are seeking to tie up all available sources of production in the Southwest.

PACKERS ARE CONFIDENT.

The American packers, who are commonly referred to as the trust profess to have no fear of the situation. They give these reasons for their feelings:

Prices of meat are bound to go higher despite the tariff and the opening of the canal.

Argentine and Australian beef cannot hope to compete with the corned product of the United States.

Americans will not eat solidly frozen meats. Meats shipped from either of the two rival districts must come to the ports of this country in that condition.

There is no meat war and will be none.

JAILED FOR MISBRANDING.

Manager of Eastern Packers in Oregon Is Sent to Prison for a Month.

(BY A. P. NIGHT WIRE TO THE TIMES.)

PORTLAND (Or.) June 15.—Sentence of thirty days in the County Jail was imposed yesterday on Charles H. Sommer, local manager for a firm of eastern packers for alleged misbranding of butter in packages.

Sommer will appeal to the Oregon Supreme Court.

HUERTA TO TAKE FIELD, PREDICTS SPEEDY PEACE.

Capital Is Skeptical and Hopes for Intervention—Six Hundred Federals Killed or Wounded in Battle at Sausalito—Fall of Durango Into Rebel Hands Is Reported to Be Imminent—Railroads Tied Up.

(BY DIRECT WIRE TO THE TIMES.)

MEXICO CITY, June 15.—[Exclusive Dispatch.] The fall of the city of Durango into rebel hands is imminent. Despite the promise of President Huerta to take the field against the rebels in person and his prediction of speedy peace, the people of the capital have abandoned hope for adjustment of Mexico's internecine differences unless the United States intervenes. Thousands of Mexicans who up to this time were bitterly opposed to intervention, now would welcome it.

FEDERALS LOSE PITCHED BATTLE.

EL PASO (Tex.) June 15.—Six hundred Federals were killed or wounded in a battle at Sausalito, May 29, according to reports reaching here today from southern Chihuahua State. After this victory over 1200 Federals, the insurgents under Gen. Villa, Chao and Hernandez marched north toward the State capital, where the Federal garrison had retreated. They are reported as having taken Cuernavaca, a mining town west of Chihuahua city.

The 400 Federals who on Friday surrounded Matamoros, were met yesterday by Villa's men at Bustillos. The rebels poured a hot fire into the Federal troops, killing the engineer and fireman. The train retired. Gen. Merced, acting military governor, has called in all the outlying contingents to the defense of the capital. The insurgents are maneuvering to prevent these movements.

Some 800 Federals at Juarez alone remain unaffected by the general advance. Juarez is threatened by a movement of Constitutionalists from the

BATTLESHIPS TO MEXICO.

New Hampshire and South Carolina Go to Vera Cruz to Relieve Connecticut and Idaho.

WASHINGTON (Ariz.) June 15.—The advance of Gen. Ojeda's Federal forces north of Guaymas was checked in fighting yesterday, said today's advance from official insurgent forces. It was said that Gen. Ojeda's State troops made a flank movement, encircling the Federal forces and capturing 150 men. There was a full in the fighting today.

Good Old Summer Time.

HEAT WAVE SWOOPS DOWN ON THE MIDDLE WEST.

Twelve Serious Prostrations Occur at Milwaukee. Accidental Drownings Reported from Various Lakes in Northern Illinois—No Immediate Relief in Sight and Farmers of Northwest Fear for Their Crops.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO BUREAU OF THE TIMES, June 15.—[Exclusive Dispatch.] Good old stinking summer, who has been lurking in the offing ever since last winter, emerged boldly into the open today and took all his adjacent territory to a fine brown. Owing to the fact that it was a holiday, there were no deaths, as the population was able to avoid the heat, which swept down suddenly, but there were numerous prostrations, five of them being serious.

At Cedar Lake, Ind., three men were drowned, and two other occupants of the boat rescued by guests at Clark's Hotel. Edward O'Hara, 54; Charles Kairous, 33, and Nicholas Kairous, 32, were victims. They sank at a depth of 100 feet, and were forty feet deep and their bodies have not been recovered.

In Milwaukee there were twelve serious prostrations and four drownings. Otto Schroeder, aged 21, drowned in Evergreen Park in sight of thousands of pleasure-seekers who were unable to rescue him. Charles Lane, aged 24, drowned in Wauwatosa pond. The victim came from Chicago and was a Civil War veteran, perished while trying to escape the heat by swimming in the lake at Soldiers' Home. Charles Lane, 27, lost his life while rescuing a woman who had fallen from a boat. He managed to hold her until assistance came and dragged her to safety, but Johnson, overcome by his exertions, sank back to death himself.

Standard.

LANE ADOPTS POWER POLICY.

RATES CHARGED CONSUMERS TO GUIDE GOVERNMENT.

Five Conditions Laid Down for Ideal Contract by Secretary of Interior—Several Applications Pending for Use of Public Lands and Water in Navigable Streams.

WASHINGTON, June 15.—"The lower rate charged to consumers by electric power companies, the lower will be the tax which such power companies must pay to the government."

Secretary Lane of the Interior Department announced today as "the heart of the policy adopted as to the disposition of water rights of the government."

Mr. Lane has pending before him several applications for rights to use the public lands and the waters of navigable streams for the development of electric power. He is opposed to making use of these waters as a source of revenue to the government, but is in favor of securing the fullest use of them for the benefit of the people.

After carefully considering a power project on the Pend d'Oreille River in northern Washington, the Secretary has laid down five conditions as "an ideal standard towards which to work in the making of the contract between the government and the applicant for the use of the power." These conditions are:

(1.) The greater development of

horsepower to be made on the part of the government. This is intended to secure the full use of the stream.

(2.) The lower the rate to consumers the lower the charge on the part of the government.

(3.) The acceptance of whatever for a period of five or ten years during which the power company is finding its market.

(4.) The acceptance as a public utility of the State's jurisdiction over intra-State rates and services; and of Federal jurisdiction over inter-State rates and service.

(5.) Absolute prohibition of combination or monopoly and the right of revocation on the part of the government in the event that it is established to the satisfaction of the Secretary of the Interior or the courts that prices have been fixed by agreement with competing plants.

"It is my purpose," said Secretary Lane, "to follow these conditions in the making of all future contracts with power companies. They are just alike to seller and buyer of the power; they are fair to the government; and they will make for the conservation and genuine development of natural resources now going to waste."

Four Nuns in Crash.

(Continued from First Page.)

Cross Hospital in San Mateo, first telephoning to the Worth home in San Francisco the news of the boy's injuries.

Mr. and Mrs. Worth were at a theater and could not be communicated with in time to go to San Mateo before the story reached Rosenthal. The story told by Rosenthal is to the effect that no lights were burning on the Worth machine and that he failed to see the other automobile until the crash came. The collision was one of terrific violence and totally wrecked both cars. The impact was so great that Rosenthal's machine caused the auto driven by Worth to turn turtle completely, and Worth was driving himself before the auto he was driving had pinned him down to the ground.

Rosenthal is said to have had a woman companion in his auto, and although she also went over the embankment in the machine she was not injured. She will be called as a witness in the case before the coroner's jury that the other automobile in San Mateo county to investigate the accident. Rosenthal, who was in San Francisco on a business trip, has been staying at the Court apartments while he has been in this city.

The victim of the accident was one of the best-known young men in the city, and came from a fine old California family.

Barred.

DRAW THE LINE ON ANNA SHAW.

ANTI-SUFFRAGISTS REFUSE TO DEBATE WITH HER.

Declare She Has Reached the Point Where She is Absolutely Responsible for the Results and that She Uses Abuse and Vilification Instead of Argument.

(BY FEDERAL WIRELESS LINE TO THE TIMES.)

WASHINGTON BUREAU OF THE TIMES, June 15.—[Special Dispatch.] "No member or representative of the National Association Opposed to Woman Suffrage will ever again debate or discuss in any way the suffrage question with Dr. Anna Howard Shaw, the leader of the suffragists. The women who are opposed to votes for women realize that Dr. Shaw has reached the point where she is absolutely responsible for the results and that she uses abuse and vilification instead of argument."

The committee took a holiday today. Senator Martine of New Jersey occupied the pulpit of the First Methodist Church of Charleston and delivered a remarkable address. He was introduced as a member of the "American house of lords," and when he took the platform he objected strenuously to the designation.

"I am a member of the Senate of the United States," he said, "and I am proud to be, but I cannot accept the designation of 'lord.'"

Senator Martine discussed the physical results of the State, declaring them to be inexcusable.

"But the rich mineral lands of your State," he declared, "are being squandered and the country is being ruined by the liquor traffic, the gambler, the vicious and those interested in the vice and the places where young girls are ruined."

"The officials of the National Association Opposed to Woman Suffrage have been so busy with their own party that they have not had time to repeat such a statement. These women are noted throughout the country not only on account of their work against suffrage but because of the wonderful things they have done in charitable, philanthropic and other lines."

His speech was received with a standing ovation and the high standing and upright character of the women who she assailed and she did not produce the slightest semblance of evidence to uphold any of this abuse. The national association concludes, therefore, that Dr. Shaw is absolutely responsible for the results and that she uses abuse and vilification instead of argument."

HOSTILE TO SUFFRAGETTES.

Vienna Shows Antipathy to Convention Welcomed With Open Arms by Budapest.

BUDAPEST, June 15.—Budapest's hearty public welcome to the Women's Suffrage Congress at Vienna, a marked contrast to the almost hostile attitude displayed by Vienna. The Austrian government and the municipal government have declined all recognition to the suffragettes while the Hungarians are showing every hospitality.

The municipality of Budapest has voted \$2000 for the entertainment of the delegates and has formally welcomed the congress; the municipality will give a reception in honor of the delegates tomorrow evening, and prominent citizens have arranged a variety of entertainments.

In Austria, the official bodies have refused to render the congress any assistance, the local supporters of the congress when solicited aid being told bluntly that the only action the city was liable to take was to place double police force on duty. It is thought the outrages by the militants in England are responsible for this attitude.

* Safe and Sure.

No investment in the world is safer or more conservative than Los Angeles city or country real estate.

OPERATORS READY TO STRIKE BACK.

Have Scores of Witnesses Lined Up for Hearing.

Matter of State's Rights Is Involved in Inquiry.

Senator Martine Preaches in Methodist Church.

(BY A. P. NIGHT WIRE TO THE TIMES.)

CHARLESTON (W. Va.) June 15.—The coal mine operators of West Virginia will begin the presentation of their case tomorrow before the Senate mine strike investigating committee. The attorneys for the operators lined up today scores of witnesses they will produce to show that they are not to be blamed for the conditions which threaten the Paint and Cabin Creek mining districts into a state of civil war.

Much of the activity of the mine operators' lawyers will be directed toward breaking down the story of Leo Calgan, an ex-mine guard, and other witnesses for the miners, who told the committee Saturday of his experience on the armored train which shot up the mine at the Paint and Cabin Creek, just before the last declaration of martial law.

The discussion of general conditions leading up to the strike is the only branch of the inquiry which the committee has left to dispose of during its stay in Charleston. When the inquiry here is concluded, the committee will return to Washington to conduct its hearings.

What the final result of the inquiry will be in a matter which is being discussed eagerly. The committee will have the resolution of the Senate authorizing the investigation only has the power to inquire and report. Resolutions of the Senate authorizing the investigation only has the power to inquire and report.

LET ATLANTIC INTO CANAL.

Water from Eastern End Will Flow Through Gatun Locks.

(By Cable and Direct Wire to The Times.)

PANAMA, June 15.—[Exclusive Dispatch.] The water from the Atlantic Ocean will be let into the lower level of the Gatun Locks this week. Dredges will then complete the excavation from the ocean to the locks, which will amount to about 2,000,000 cubic yards.

Diplomatic.

CALLS KAISER BOND OF PEACE.

CARNEGIE SAYS EMPEROR IS ADMIRER IN AMERICA.

(By Atlantic Cable and by Federal Wireless Line to The Times.)

BERLIN, June 15.—[Special Dispatch.] "This is in every sense a great peace festival," Andrew Carnegie said today at the Hotel Adlon, where he received numerous callers and a delegation representing the principal German newspapers. "I am proud to be here with my countrymen how greatly Kaiser Wilhelm is revered and admired in the United States as the pillar of peace among the powers of Europe. You know we are both great commercial countries and such our interests are conserved by peace and menaced by war."

"The Kaiser is a living bond for world peace. He is a great lesson to all rulers of the earth that true greatness is only to be found in the greatest peace and in the greatest peace."

"I am glad to see how proud Germans are of their great Emperor. His wonderful reign has been a blessing to the world, but to Germany many most of all. He has given his people time and room in which to expand and German worth and German progressiveness have become properly known and appreciated to the uttermost ends of the earth since a young and war-torn and misunderrated, he commenced his reign twenty-five years ago."

Everybody wants to see Carnegie, everybody wants to talk to Kaiser der Industrie (Emperor of Industry), who will tomorrow present to the Kaiser the Kaiser's peace medal. The Kaiser's peace medal is the symbol of the peace and reconciliation societies in the Hall of Knights of the Schloß.

Schloß, but the great American like to be independent and as he says himself he wants to see everything in the world as it is. He is a great peace and reconciliation societies in the Hall of Knights of the Schloß.

INCREASE IN ASSESSMENT.

Equalization Board Publishes Its Figures.

Gain of Two Million from the Corporations.

Franchises Is Slightly Reduced.

BY DIRECT WIRE TO THE TIMES.] SACRAMENTO, June 15.—(Exclusive Dispatch.) Having finished the work of assessing the public utilities and other corporations, the State Equalization Board today published the results of its assessment made since the beginning of the year.

The board's report shows that the gain from the corporations was two million dollars, or 10 per cent, over the assessment of 1917. The franchises, however, are not yet assessed, but are expected to show a slight decrease.

The board's report also shows that the gain from the public utilities was one million dollars, or 10 per cent, over the assessment of 1917.

The board's report also shows that the gain from the public utilities was one million dollars, or 10 per cent, over the assessment of 1917.

ARMY PLACED UNDER BOND.

Salvation Lassies Are Marched to Sacramento Police Station.

BY DIRECT WIRE TO THE TIMES.] SACRAMENTO, June 15.—(Exclusive Dispatch.) Without trumpets or drums to herald their coming, the Salvation Army marched to the police station last night with Corp. Pendergast and Patrolman Malone as the front and rear guards.

The marchers were under arrest for violating a city ordinance by holding a meeting on a street corner.

Pendergast and Malone interrupted the service and ordered the members of the army to accompany them to the police station.

The city forbids street-speaking, having provided a place for such meetings in the city plaza. The army gave bail.

BY DIRECT WIRE TO THE TIMES.] SACRAMENTO, June 15.—(Exclusive Dispatch.) Gov. Johnson has until midnight tomorrow night to sign between 600 and 700 bills enacted by the last Legislature, chapter them and file them with the Secretary of State.

All bills which are not past these three steps by the time designated by the Constitution are consigned to oblivion.

Monday marks the thirtieth day following the adjournment of the Legislature excepting Sundays. It has been set as field day for the list of special appropriation bills.

The executive has already signed many of the measures, but will not announce their approval until tomorrow.

Hundreds, however, will suffer the ignominy of the "pocket veto," lack of funds to be given as the cause for their non-approval.

Special appropriations bills aggregating almost a million dollars were passed by the recent Legislature. The Controller estimates that this total, if all the bills were signed, would be about \$5,000,000 in excess of the State's revenue for the coming biennial period.

To come within the revenue the Governor will prune down the total about 50 per cent.

For the past fortnight, the executive chamber has been made the scene of a struggle between the Governor and the Legislature.

They have been storming the gubernatorial sanctum to an effort to influence Johnson to sign their special pet bills and let the other fellows go.

It was learned today from authentic sources that the Governor will approve all the bills carrying salary increases and creating new jobs and commissions.

Twenty-three constitutional amendments will go to the people for a vote at the next general election, while a referendum on several measures seems almost certain from the storm of protest that has gone up on a few bills, signed by the Governor.

Adm.

POLICE CONFER WITH ESOLA.

EX-SAN FRANCISCO OFFICER GOES TO FOLSOM TODAY.

Declares Meeting With His Associates Was Merely to Bid Him Goodbye and Had Nothing to Do With Graft Trials Which Will Follow.

BY A. P. NIGHT WIRE TO THE TIMES.] SAN FRANCISCO, June 15.—(Exclusive Dispatch.) Police Officer Frank Esola, who has been sentenced to serve five years in Folsom prison for grand larceny in connection with the local bus trials, held a secret conference this afternoon at the County Jail with five other members of the police force of this city who will shortly be tried on conspiracy charges.

The meeting, it is said, was planned by Esola himself after Asst. Dist. Atty. James Brennan had stated he would call Esola as a witness in the trials of the other former police officers.

A rumor that Esola had stated he would call Esola as a witness in the trials of the other former police officers.

When asked what the conference was all about, the convicted man said: "Why, the boys just came out to bid me goodbye and have a bite to eat."

Esola will leave for Folsom prison tomorrow to begin his sentence.

The five who visited Esola today were Sullivan, Drolette, McGowan, Joseph and McHugh. MacPhee and Taylor, two of the seven who will face trial for conspiracy in the alleged bus trials, did not attend the meeting.

WOMEN'S CONGRESS OPENS.

Mrs. Carrie Chapman Catt Delivers Presidential Address at Budapest International Convention.

BY CABLE AND A. P. TO THE TIMES.] BUDAPEST, June 15.—The Women's Suffrage Congress formally was opened in the Academy of Music this afternoon. The Minister of Education, in behalf of the government, the Burmaster of Budapest, and Countess Iska Teleki, president of the Hungarian Organizing Committee, delivered addresses of welcome.

Mrs. Carrie Chapman Catt of New York in her presidential address devoted her attention to the phenomenal growth of women's movements, saying that there are only a few countries now without an organized movement.

JOHNSON DEFIES WRITERS' CRAMP.

To Sign All Bills Creating Jobs and Commissions.

Some Appropriations May Get Lost in Shuffle.

But He'll Do All He Can for the Pay-Roll Brigade.

BY DIRECT WIRE TO THE TIMES.] SACRAMENTO, June 15.—(Exclusive Dispatch.) Gov. Johnson has until midnight tomorrow night to sign between 600 and 700 bills enacted by the last Legislature, chapter them and file them with the Secretary of State.

Beer Exposed to Light for 5 Minutes Becomes Undrinkable

This is not our statement, but the deliberate opinion of one of the most renowned scientists in the world. Read the entire statement:

"We have tested beers repeatedly, placing the bottles in the direct sunlight, and testing the same after one, two, three and five minutes exposure, found that the beer with three and five minutes exposure became undrinkable on account of the peculiar odor developed. The detrimental effect of light upon beer can be successfully counteracted by the employment of brown or dark colored glass bottles, and such bottles are, therefore, recommended."—Wahl-Henius Institute of Fermentology.

It is not enough that beer be brewed pure, it must be kept pure.

Many Americans prefer beer in a light bottle. Most brewers follow the course of least resistance.

Light starts decay even in pure beer. Dark glass gives the best protection against light. Schlitz is sold in Brown Bottles to protect its purity from the brewery to your glass.

See that crown or cork is branded "Schlitz."

ROSE FESTIVAL IN NEW HANDS.

PRESIDENT OF PORTLAND'S FESTIVAL STEPS DOWN AND OUT.

Funds Collected for Big Celebration This Year Are Insufficient to Meet All Different Obligations and a New Regime Will Have Charge in the Future.

BY DIRECT WIRE TO THE TIMES.] PORTLAND (Or.) June 15.—(Exclusive Dispatch.) New hands will be at the helm when the Rose Festival of 1918 is held.

This will be made necessary by the resignation yesterday of Ralph W. Hoyt, president, and George L. Hutchins, general manager of the festival association. Mr. Hutchins will remove to Southern California, where he has arranged to engage in the amusement business.

It was only the assurance that there would be raised a fund sufficiently great to produce a festival on a more magnificent scale than any that had gone before, that Mr. Hoyt consented to retain the presidency this year; but, as a matter of fact, less money was available for the 1918 festival than was collected for last year's event.

"We decided last year," said Mr. Hoyt yesterday, "that we should have \$60,000 for the 1918 festival, but before we started out on our campaign, the Royal Roster, donated that \$60,000 was not enough. They promised to collect \$100,000. Well, they collected, all told, about \$18,000. The rest of the money came into our office from the usual sources—about \$20,000—making \$38,000 in all available for this year's show. As a result we had to cut expenses and the show lacked several important features that we had planned."

WOMAN PIONEER DIES.

Woodland Resident Who Came Here in Prairie Schooner in Early Days, Passes Away.

BY A. P. NIGHT WIRE TO THE TIMES.] WOODLAND (Cal.) June 15.—Mrs. Mary Ann Hopkins, who came to California sixty-three years ago, crossing the plains in an ox-drawn prairie schooner, died here today. She was 72 years old.

She was married in 1860 to L. R. Hopkins, former judge of the Superior Court of Yolo county. Judge Hopkins died in 1913.

SHIP KLONDIKE GOLD.

Seven Hundred and Eighty Thousand Dollars Is Consigned to San Francisco.

BY A. P. NIGHT WIRE TO THE TIMES.] JUNEAU (Alaska) June 15.—Seven hundred and eighty thousand dollars worth of Klondike gold, consigned to the San Francisco mint through the Seattle assay office, left here yesterday on the steamship Humboldt. This is the first large gold shipment of the year.

DISCUSS POWER STRIKE.

"Pin Head" McCarthy and Other Agitators Speak at San Francisco Mass Meeting.

BY A. P. NIGHT WIRE TO THE TIMES.] SAN FRANCISCO, June 15.—A mass meeting of members of the Light and Power Council for the purpose of discussing their strike against the Pacific Gas and Electric Company, was held here this afternoon.

Former Mayor P. H. McCarthy, president of the Building Trades Council and Supervisor Andrew J. Gallagher, president of the San Francisco Labor Council, were among the speakers.

The speakers denounced the agreement made recently by Vice-President Granger of the McNulty faction of the International Brotherhood of Electrical Workers with the officers of the power company whereby the McNulty men were to go to work for the company, filling the places of the men on strike.

ARIZONA TAXES TO BE DOUBLED.

County Equalization Boards Get Instructions.

Bulk of the Burden to Be Placed on Railroads.

Taft Opposes Abolition of Capital Punishment.

(Special Correspondent of The Times.)

PHOENIX (Ariz.) June 13.—The Board of Tax Commissioners has had to travel around Arizona for several days in order to emphasize to the county equalization boards that the tax valuations this year have to be made about double the figures of last year. Several of the boards have proven a bit stiff-necked and obstinate, but they are understood to have been shown effectually the error of their ways. In one county the Board of Equalization had to be brought to order again after supposedly final adjustment in order that the Santa Fe railroad lands might be assessed at a high enough figure and to raise as much as the assessments on stocks of merchandise and upon cattle. When the state assessment roll is completed, it will more nearly approximate the correct valuation of the real and personal property than ever before known in the state or territory.

The Southern Pacific figures are not in yet, but are expected to be about the same as the Santa Fe. The Santa Fe has reported a total mileage of 453, with valuation of \$1,052,562. The Arizona Eastern system, including the Globe, Phoenix, Bisbee and Buckeye lines, has returned a valuation of \$1,125,685. It is apparent that the railroads will be assessed this year upon more than double their last year's assessment of \$534,434. It is interesting to note that possibly a dozen years ago, when the railroad lines were not materially higher in aggregate length than now, the total tax assessment for Arizona for all classes of property was only about \$10,000,000. The total mileage of the railroads within the state is about 3100.

ESPEE BOND ISSUE.

The Southern Pacific has applied to the Arizona Corporation Commission for permission to issue \$10,000,000 in trust bonds. Similar action is understood to have been taken in all other states in which the company has property. It is believed that the capital to be derived is to be used in taking up outstanding obligations and not for improvements.

The Board of Freeholders having under consideration a new town charter for Phoenix has voted to establish a managerial system of commission form of government. It is proposed that the City Commissioners shall have only nominal compensation for their services and shall appoint a superintendent and manager, who in turn shall appoint and remove all administrative officers, with the exception of an auditor, whose report shall be made to the commission.

While Phoenix has been forging ahead at a rapid rate with street lighting, paving, sewerage and extension of water service and fire protection, it has been at the cost of not a few dollars. So the Council has called a special election to secure authority for the issuance of \$175,000 in five percent bonds. This sum will pay floating indebtedness as well as the cost of widening streets, for paving around the Federal building and for the provision of a park or children's playground.

TO LEASE SCHOOL BLOCK.

At a crowded mass meeting, recommendation has been made to the School District Trustees to call an election asking authority to Mr. Central School block, much opposition being shown the idea of selling the property. It is understood, however, that the school trustees are in their call for an election the question of selling the property for \$250,000, jointly to the county of Maricopa and city of Phoenix, for use as a site for a combined Courthouse and City Hall. Such action as this would leave the city and county free to sell the two blocks. The Central School block, which is situated on property worth at least \$500,000, permitting the expenditure, if deemed necessary, of \$100,000 upon the joint indebtedness of the county and city, is a very valuable piece of property. The school trustees are in their call for an election the question of selling the property for \$250,000, jointly to the county of Maricopa and city of Phoenix, for use as a site for a combined Courthouse and City Hall. Such action as this would leave the city and county free to sell the two blocks. The Central School block, which is situated on property worth at least \$500,000, permitting the expenditure, if deemed necessary, of \$100,000 upon the joint indebtedness of the county and city, is a very valuable piece of property.

TAFT SPEAKS OUT.

President William H. Taft has again been heard from upon matters affecting political conditions in Arizona, and, as usual, his expression of opinion is very much to the point. When R. B. Sims of the State Penitentiary, in furtherance of Gov. Hunt's campaign seeking the abolition of capital punishment, has written upon the subject to many prominent men throughout the Union, hoping for support in this pet idea, the President has replied in the following words: "I have your letter of May 14. I am opposed to the abolition of capital punishment in Arizona." The Governor is said to have passed along and charged at the final two words and to have wondered audibly whether the ex-President intended his opposition to apply only to Arizona.

After liking a couple of decisions made by Superior Judge Phillips of Maricopa county, the latter unions of people are said to be suspecting themselves in the circulation of a recall petition, designed to embarrass the incumbent judge in his reelection. The only official of that faith chosen in the local Democratic landslide of the last election. His reputation for unblemished probity caused his preference in the office he occupies and it is considered most reasonable that he should be re-elected. He is charged with being subservient to the enemies of the workingman. According to his opponents, the last year was his action in dissolving an legal grounds, a damage suit

RIDES RACES MILES APART.

Noted Berlin Horseman Uses Airship and Wins Both Events.

(By Cable and Direct Wire to The Times.)

BERLIN, June 15.—[Exclusive Dispatch.] Lieut. Von Egan-Kruger, the noted horseman, won the steeplechase at Hamburg this afternoon. Immediately after the race he flew to the Grunewald, near Berlin, in a biplane. He made the trip of eighty miles in ninety minutes and arrived just in time to ride his own horse and win the Potsdam gold cup.

COURT IN AN AUTOMOBILE.

Against the Ray Consolidated Copper Company.

In order to secure the evidence of a bedridden witness, two automobiles, loaded with court officials, including Judge Phillips and Jurors in a criminal trial, were driven about 175 miles a few days ago, to the vicinity of Glendale, where a Near Glendale Tuesday was found the body of an unknown wayfarer, who evidently found unprofitable a ride on the road. Through the body was a self-inflicted bullet wound from a pistol that had fallen beside the body. The man had been out of a freight train while "beating his way" eastward. He appeared to have been of Scandinavian ancestry, weighed about 160 pounds and was dressed in a dark suit. All identifying marks had been removed from his clothing.

Glenn Gullen of Phoenix yesterday harrowed escaped death by the body of a frightened horse on the dangerous Fish Creek grade on the Roosevelt road. Thrown from his horse, he fell or rolled about feet while the horse and vehicle continued on over a 500-foot drop. A second horse of the team rolled down from his mate and thus saved his own life.

Gov. Hunt was the principal speaker at yesterday's picnic of the Phoenix Clerks' Association and encouraged his auditors by the tale how he had started as a delivery boy when his last year's assessment of \$534,434. It is interesting to note that possibly a dozen years ago, when the railroad lines were not materially higher in aggregate length than now, the total tax assessment for Arizona for all classes of property was only about \$10,000,000. The total mileage of the railroads within the state is about 3100.

FUNERAL IN LOS ANGELES.

Remains of Veteran Conductor Who Died at Escondido Brought to This City for Interment.

ESCONDIDO, June 15.—To Conductor David L. Gilmore of the Santa Fe Railway Company fell the sad duty this morning of taking out of Escondido the train which bore the body of George H. Clegg, the veteran conductor and railroad man, on the first part of his journey to Los Angeles. Tenderly the train officials lifted the casket, which was covered with a flower-covered casket into the baggage car just before the train pulled out for Oceanside, where the transfer was made to the main-line train for the north. Tears were in the eyes of many at the various stations enroute. Accompanying the body were Wallace A. Marshall, a grandson of the deceased, residing in Los Angeles, and L. Roberts of Los Angeles, General Chairman of the Order of Railway Conductors.

NEWS BRIEFS.

Owing to the retirement of Prof. C. W. Correy, president of the High School, two weeks before the commencement week, the school trustees have arranged with Mr. Sheldon, teacher of science, to act as principal pro tem the balance of the school year. The trustees have selected G. J. Roberts of Fullerton as principal and he will enter upon his duties with the opening of the next school year, September 8.

Bert L. Toney of E. E. Wood & Co. and Miss Mary E. Murray, daughter of Dr. and Mrs. E. E. Murray, were married by Rev. Dr. Hardie at the Methodist parsonage this morning, leaving on the morning train for a wedding trip to Los Angeles and the beaches.

The wedding of John Anderson, a cement contractor, and Miss Beaulieu, daughter of Mr. and Mrs. M. L. Howell, will take place Monday morning, Rev. M. A. Frost, pastor of the Central Methodist Church, officiating. Upon the return of the couple they will live in the J. E. Stiles house on Howell Heights.

The funeral of Mrs. Agnes Gate, who died in Los Angeles, will be held yesterday afternoon, Rev. M. A. Frost, pastor of the Central Methodist Church, officiating. It was attended, among other relatives, by Don and James Stevenson of Inglewood, the late deceased's former in the mercantile business in Escondido.

INFESTED ARCHITECTURE.

Parasites That Too Often Disfigure Building That Otherwise Would Be Most Attractive.

(Boston Herald.) Three distinct parasites fasten on our city buildings, confusing their scale, clustering their lines, and obscuring the architectural disfigurement in advance the conscientious architect. The first is the lattered signboard, made not merely to be seen, but to catch and hold the glance. In some form, the sign is a necessary evil. But could it not be reckoned with more boldly by the architects, both in designing elevations and in advising clients after occupation? Some day merchants will come to see that beauty in water for sale, and in the window schemes for their display, calls also for a framing beauty in the whole store front.

Sequel To Love for Doll

Material Instead Greatly Developed Teaching Children to Love their Dolls.

The little child's doll is mother to the most romantic fancy. And in the years that pass, the doll fades into the petals of a June rose, to be remembered in the most wondrous of all transformations. Now comes a more serious period when the joy of real motherhood should be as a tranquil as best effort can provide. This is accomplished with a wonderful result. The child's need for an external application so penetrating in its nature as to thoroughly lubricate every cord, nerve and tendon, and to make the period one of restful days and peaceful nights. Mother's Friend is sold at all drug stores at \$1.00 a bottle. Do not fail to use it regularly as directed. Write to-day to Bradfield Regulator Co., 235 Lamar Bldg., Astoria, Ore., for their valuable book for parents.

SLAYS SOLDIER IN DANCE HALL.

Cavalryman Is Killed and Piano Player Wounded.

(Special Correspondent of The Times.)

Ammunition Shipments Show Neutrality Violated.

Veteran Government Scout Found Dead in Road.

(Special Correspondent of The Times.)

BISBEE (Ariz.) June 15.—Saturday night at Douglas, Louis Nelson shot and killed Albert Jones and severely wounded a piano player in a dance hall. Nelson and Jones, both negroes, were members of the Ninth Cavalry and have been rivals over the affections of a negro, known as Tessie Lee. The murder was by means of a Springfield rifle, which had been taken by Nelson from the cavalry camp. The shooting was done in the presence of more than a score of individuals. Five shots were fired. Jones dropped to the floor. One shot went wild and one struck the piano player. Then the murderer, standing directly over his victim, fired three shots, all of which passed through or near the heart. Nelson has been held without bail.

TWO MINERS KILLED.

Friday afternoon W. T. Menear and Alfred Hodge were killed by a cave in a drift on the 300 level of the Czar mine of the Copper Queen Company. Their absence was not discovered until the next morning, when a shift of men was set at work, only to find the dead bodies of the two miners. Hodge was reached after an hour's work but it took nine hours more of fast and careful digging to reach the body of the second miner. Both had died of suffocation. They had been employed in taking out old timbers and the assumption that the cave occurred in the empty timber baskets. Both men were highly esteemed and were among the most competent and careful of the Copper Queen force of miners. Menear was 28 years of age and leaves a widow and two children. Hodge was 24 years old, with a dependent mother and sister.

—

The image is a vertical, high-contrast scan of a dark, textured surface. It appears to be a book cover or a piece of wood, with a bright, vertical strip of light running down the center, creating a strong visual contrast. The texture is grainy and uneven, with various shades of black and grey. There are some faint, horizontal lines and patterns visible, suggesting a woven or layered structure. The overall effect is abstract and dramatic, with a focus on light and shadow.

Our Lady of the Angels FIESTA AT OLD PLAZA CHURCH.

Ancient Mission Gay With
Spain's Colors.

Celebration Marks End of
Reconstruction.

Affair Begins Today and Con-
tinues Week.

Gay in the yellow and red of Spain,
the old Plaza Church of Nuestra
Senora de Los Angeles will be
the scene of a gay fiesta which will begin
this morning and continue until Sat-
urday night.

The old church has been repaired
and enlarged to two or three times

Viola Torba and Ernesto Martinez
and a company of Mexicans will intro-
duce Indian dances.

Thursday evening will be dedicated
to the Knights of Columbus. The
dress being by a member of the or-
der; there also will be Spanish dances
by Miss Luisa Velasco, a song by
Miss Lupe Rodriguez, and "El Tamber
Mayor" by John Zorrachino of the
"Mission Play."

Friday evening's program, dedi-
cated to the Newman Club, will in-
clude an address by a club member;
Spanish "Bendalla," by natives of
Spain; "El Gallo-Consue" (Rabbit-
Rooster), a Spanish comedy; char-
acter dances by boys and girls from
the San Gabriel Mission Dramatic
Club; selection by Italian Quintette.

No set program is arranged for
Saturday, but a special Spanish din-
ner will be served from 2 to 5 p. m.
The "Mission Play" orchestra will
play each evening.

COMMITTEE AT WORK.

Three Men Here Represent South-
ern California in Preparing for Por-
tola Festival.

Three Los Angeles men have ac-
cepted a special commission from the
Portola Festival Committee of San
Francisco, to represent that organi-
zation in Los Angeles and coordinate
the plans for this city's participation

IN MEMORY OF THE MACCABEES.

ANNUAL SERVICE FOR KNIGHTS
AND LADIES GONE.

Two Score of Dead from Various
Tents and Hives of Fraternal Or-
ders Objects of Reverent Tribute
from Their Loving Brothers, Sisters
and Pastor.

The annual memorial services for
Los Angeles tents and hives of the
Knights and Ladies of the Maccabees
of the World were held yesterday
morning in the Hamilton Methodist
Episcopal Church, Eighteenth street
and Naomi avenue. The church was
comfortably filled with members of
the order and the pastor, Rev. Will
A. Knight, preached a special ser-
mon on the subject, "Welcome to the
Maccabees—A Fraternal Brotherhood
of Christianity."

The speaker used biblical and sec-
ular illustrations to define friendship

Advertising Advertising

You are the Judge and the Jury

By H. S. Carroll

Let us ask you, the purchaser, "Does Advertising fill its true mis-
sion?"—It must if you demand it, for you are the judge and jury.
There is no higher court of appeal.

—When advertising fulfills its true mission, there is no better coun-
selor to advise you *what* and *when*—*how* and *where* to buy.

—See to it that you get justice, that the contract of the written
word is fulfilled to you to the very letter. Take no half-hearted
promises, insist if necessary, demand if need be, but get the full measure of
the promises outlined in the advertisement you follow.

—Advertising should never be the mouth-piece of the fake, insincere, mislead-
ing announcement. It never *could* be if you exercised your right.

—You, as one of the millions of purchasers, demanding your rights, are only
helping to shed the true light upon the Gospel of Advertising.

—Advertising was born in truth, to fill a need; it has grown and prospered
because of the backbone of truth that is in it. Now let it shed its true light
everywhere, out the insincere and misleading.

—Will you act as the all-powerful judge and jury in this case? The next
time you read an advertisement that makes extravagant claims take the adver-
tisement with you and see that you are delivered the article called for in all its
value. If it does not come up to the specifications you have a right to demand
that it should, for has not the advertiser signed his name to a written con-
tract, as it were, that he will deliver the goods as specified.

—Again we say you are the Judge and the Jury.

Article Eleven

Compiled by the Educational Committee
Advertising Club of Los Angeles

The dance of Los Matabichines.

A native Indian dance performed by Mexicans from the States of Jalisco and Guanajuato in the patio of the Plaza Church yesterday in preparation for the all-week fiesta which begins today.

On former site; a new two-manual
organ has been installed, many im-
provements have been made and other
will follow, new altars, pews, etc.

The fiesta, it is hoped, will wipe away
the \$18,000 indebtedness incurred in
the rebuilding.

The arrangements for and manage-
ment of the fiesta are in charge of
five priests of the Missionary Sons of
the Immaculate Heart of Mary.

Much of the entertainment to be
provided for the six evenings will be
reminiscent in character, bringing
back memories of the old days of the
California missions and of scenes in
Spain and Mexico.

On the walls surrounding the patio
hang flags and banners, tinsel and
tissue paper. The booths in the arcades
are bright with red and yellow trim-
mings.

MANY TAKE PART.

The only exception to the general
rule of yellow and red in the color
scheme is at the ice cream and candy
booth. There the dominant tones is
green. There's a reason. The booth
will be in charge of Miss Minnie
O'Brien, who has for her associates
the Misses Julia Buckley, May, Lily
and Katherine McMahon, Edna Jones,
Genevieve Stanton, Theresa Hiller,
Catherine Bolton, Cecilia Murray, Alice
and Katherine O'Brien and Mary
Kessner.

The dining-room, where typical
Spanish dinners are to be served each
evening, will be in charge of Mrs.
George H. Williams, with a corps of
co-workers, among whom are: Mrs.
C. C. Castillo, Mrs. George Beecher,
Mrs. C. Ficheria, the Misses Gertrude
Williams, Helen Coll, Estella Camp-
bell, Rosa Verdugo, Florence Appel,
Florence Johnson, Brenda Arguello,
Edith Pellegrini and Marie Wasser-
man.

The art booth will be managed by
Messrs. J. M. Gonzalez and Augustine
Herrera, while the ruling spirit of the
fancy booth will be Mrs. Dolores
Lugo, Mrs. A. Dunn, Mrs. M. V. de
Mesa, Cruz Martinez and Theodore
Arrington will be at the wheel of for-
tune. The Misses Carson and Rich-
mond and Mrs. Josephine del Valle de
Forster will look after the Monte
Carlo booth. A Japanese string game
and a "diddle ball" game will be in
the hands of Mrs. T. E. Russell and
Miss Alice Larquier. Fortunes will be
told by Mrs. L. Francis, in Gypsy cos-
tume.

The cake wheel will turn under the
eye of Mrs. Ygnacio del Valle. Curlos,
in another booth, will be sold by Miss
Rosalee Nogueira and Miss Elvira Hats
will be checked by Mrs. Castillo. T.
F. Russell will be at the ticket win-
dow. George H. Williams will be "on
the door."

FORMALITIES TONIGHT.

The formal opening will be this
evening, although the fiesta will be
open all day. The program for to-
night, dedicated to the members of
the parish, includes a "Welcome" by
the orchestra from the "Mission
Play," an address by John Scott; song,
"California," by Miss Viola Yoris, ac-
companied by Miss Mamie Jenkins;
address by Dr. Joseph Coyne, president
of the Knights of Columbus; "El Palo-
te" (Spanish drill) by altar boys of
the parish; dance, "The Butterfly," by
Miss Luisa Velasco.

On tomorrow evening, dedicated to
the Young Men's Institute, the Hon.
Thomas White will deliver an ad-
dress; a song, "El Limpiabotas," will
be rendered by a group of boys; a
Spanish dance will be given by Miss

In the big fête of October 22 to 25
next.

The three are H. S. Jones, Leo
Youngworth and P. E. Silverwood.

It is already assured that Los An-
geles and Southern California as a
whole will take prominent parts in
the Portola celebration, which will com-
memorate the 400th anniversary of the dis-
covery of the Pacific Ocean by Vasco
Nunus de Balboa.

Jones has arranged for the par-
ticipation of the famous White
Squadron of the Elks in the parades
which will be a prominent feature of
the Portola celebration.

The Portola will be one of the lead-
ing features in the State-wide holiday
program to be arranged by the
California Celebration Committee, of
which Douglas White of Los Angeles
is secretary. A general conference of
the celebration organization is to be
held in San Diego, June 15.

MINNEAPOLIS VISITORS.

Financier Has Made a Long Visit
in Southern California and Thorough
Study.

E. P. Capen, a Minneapolis financier,
who has been touring Southern Cal-
ifornia, and recently staying at the
Bryson, with Mrs. Capen, will return
home this week. Mr. Capen has spent
several months here as a visitor has
made a more thorough study of con-
ditions. He is much impressed with
the substantial character of the
growth of the city and is enthusiastic
over the beauty of its environs. He is
particularly pleased with our good
roads and believes they are a great
asset. He insists, however, that Min-
neapolis is the best city in the coun-
try.

OWENSMOUTH BRIEFS.

The barley aphid has spread to the best
fields with alarming results. Over 200
acres of the American Beet Sugar
Company's best crop are seriously af-
fected. The small insect is believed
to have worked its way out of the
soil, the result of deep ploughing. The
little pest hugs closely to the
skin of the vegetable and sucks the
sap, draining the plant of its vitality.

E. P. Beckwith, ex-justice of the
peace of Calabasas, was thrown from
his vehicle and sustained three broken
ribs and other painful injuries to
his head and body while driving
along the State highway. His horse
became frightened at an auto truck.
Beckwith was picked up unconscious
and taken to a Los Angeles hospital.
Owenmouth is to receive better
mail service after June 15, according
to orders from postal authorities in
Los Angeles. Mail will be routed
over the Pacific Electric Railway and
the old route from Chatsworth is to
be discontinued.

John V. Deane, 8-year-old son of
Mr. and Mrs. E. D. Deane, was taken
to Los Angeles yesterday to undergo
an operation for the removal of the
left eye. He is arranged to spend some
time here while playing and complica-
tions set in which threatened serious
trouble.

Miss Bernice Hull, daughter of Rev.
and Mrs. T. A. Hull, entertained
fifteen of her lady friends at her
home on North Euclid avenue
Thursday evening. Miss Jewel
Rankins of Hollywood and Miss
Catherine Lennox of Van Nuys were
out-of-town guests.

J. L. Vignes, the cattle king of Oat
Mountains, has just disposed of a
large consignment of fat young
beavers. He is anxious to increase
his herd this fall, and with the ex-
cellent pasture in the winter, he is
prepared to care for thousands of
sheep and cattle.

and fraternity, saying that there is
not enough fraternity or fraternal
spirit in the world to supply the de-
mand for it. For this reason, he said,
fraternal organizations such as the
Maccabees have excellent reason for
being and are a power for good in
many ways.

Officers of the order who partici-
pated in the services were Mrs. Kate
A. Russell, District Deputy for South-
ern California; Mrs. Bertha Fitzpat-
rick, District Deputy; Mrs. Julia C.
Ginn, District Deputy; Mrs. Lida Bear-
d, District Deputy; Mrs. H. H. Jones,
Commander of Hives No. 1; Mrs.
Jennie Berryhill, Commander of Hives
No. 4; Mrs. Mary Coughlan, Com-
mander of Hives No. 11; Mrs. Mary L.
Deering, Commander of Hives No. 12;
Mrs. Gertrude Rutherford and
Mrs. Julia A. Baldwin, Hives Rec-
ord Keepers; E. M. Guthrie, California
State Record Keeper for the K. of L.
No. 6; and C. E. Thompson, Com-
mander of Tent No. 2.

Two tents and five hives were rep-
resented. The roll was read as a re-
cord of the services rendered by the
order in the past year. The roll was
read by the District Deputy, Mrs. Bertha
Fitzpatrick.

SCHOOL FESTIVITIES.

Largest Class in History of South
Pasadena High School Will Receive
Diplomas This Week.

Festivities incident to graduation at
the South Pasadena High School
commenced yesterday when the mem-
bers of the junior class complimented the
seniors with an elaborate seven-course
banquet and entertainment last night.
The tables were spread in the assem-
bly hall of the school, and the senior
colors of blue and gold predominated
in the decorations. Copious gifts were
presented to the seniors by the juniors,
and the class numerals formed the
principal motif in the decorations.

The next event to be used as a re-
ception room, was decorated in the
junior colors of green and white, and
furnishings and Shasta daisies were
used to decorate the room. The sen-
ior class, which has been supported
by the juniors, will be the principal
feature of the graduation exercises.
The principal of the school, George How-
ard, president of the junior class, pro-
fessor George C. Bush, Ward Fowler, Gail
Vandenbrook and Clarence Council.

Technically, Erckenbrack may be
guilty of attempted bribery, but the
Federal authorities may find it hard
to convince his neighbors and friends
in Santa Barbara that he knowingly
committed a crime. Bankers, mer-
chants, business men, the sheriff of
the county, men who have known him
for years, all have proffered assist-
ance to the grizzled carpenter who in-
sists that he meant no wrong in of-
fering to pay for assistance in landing
the postmaster of his home city.

Whether or not the unusual circum-
stances surrounding the case will re-
sult in leniency being shown by the
authorities is still a matter for con-
jecture. Assistant United States Dis-
trict Attorney Regan said last night
that he has not yet talked with Er-
ckenbrack.

Erckenbrack impresses one as being
a man who by hard work has accumu-
lated a little money, but who knows
little or nothing of the ways of the
world outside of his own circle of
friends. Rustic simplicity is written
large in his every word and action.
If he were accused of a crime, he
telling any considerable ingenuity in
his carrying out, a jury would acquit
him without leaving the jury box.
From his celluloid collar to his high-
water "pants" he fills the bill of the
country carpenter.

Charlie Is Pinched.

(Continued from First Page.)

For five years now the lonesome
old lady has gazed through her faded
lace curtains each Sunday in antici-
pation of seeing Charlie and Lucinda
Erckenbrack, her neighbors, drive up
to the front gate in the family surrey.
Each Sunday without fail she has
been bundled into the surrey, but yes-
terday she waited and watched in
vain.

Erckenbrack turned from a tele-
phone call at the jail yesterday with a
suspicion of moisture in his kindly
blue eyes, his hand to his forehead,
jump in his throat. He had been
talking with his wife in Santa Bar-
bara.

"Ain't that too bad, now?" he in-
quired plaintively of Deputy Sheriff
Cattlin. "Lucinda tells me that the
Wilder Biesch is high brother never
done us no harm, to take her ridin'
today. For ole critter don't have
over much pleasure now, an' she
sort o' looks forward each week
to see me."

FRIENDS WITH HIM.

of times we carpenters have to pay
the boss out of both eyes for four
bits a day to get a job, and nothin'
is thought of it. That was the way I
meant it. I thought I could afford to
pay the money just to get the honor
of havin' the job.

"I was gettin' mighty ole to be
climbin' about 'high buildings' an'
I thought here'd be a chance to get some-
thin' better. I'm pretty good at fig-
ures an' each like, and my daughter,
why she can't be beat at no tryin' to
get the place, so I asked Senator Wor-
cester to burn the letter in case he couldn't
get me the job. I ain't worryin' much
'bout nothin' now, an' I know
everybody would 'd' a square deal.
I figured I might get turned down an'
I didn't want none of the home peo-
ple to know about no tryin' to get
the place, so I asked Senator Wor-
cester to burn the letter in case he couldn't
get me the job. I ain't worryin' much
'bout nothin' now, an' I know
everybody would 'd' a square deal.

IN THE CHURCHES YESTERDAY

DR. LOCKE.
FIRST METHODIST CHURCH.
Pastor, Dr. Charles Edward Locke.
Topic: "The Church of the Future."
The pastor's sermon was a study in the history of the church, from the time of Christ to the present. He pointed out the many changes that have taken place, and the many ways in which the church has adapted itself to the needs of the times. He concluded by saying that the church of the future must be a church that is true to its principles, and that is willing to sacrifice for the truth.

REV. W. LEON TUCKER.
CALVARY BAPTIST CHURCH.
Topic: "The Church of the Future."
The pastor's sermon was a study in the history of the church, from the time of Christ to the present. He pointed out the many changes that have taken place, and the many ways in which the church has adapted itself to the needs of the times. He concluded by saying that the church of the future must be a church that is true to its principles, and that is willing to sacrifice for the truth.

REV. E. STANTON HODGINS.
FIRST UNITARIAN CHURCH.
Topic: "The Church of the Future."
The pastor's sermon was a study in the history of the church, from the time of Christ to the present. He pointed out the many changes that have taken place, and the many ways in which the church has adapted itself to the needs of the times. He concluded by saying that the church of the future must be a church that is true to its principles, and that is willing to sacrifice for the truth.

UNCLE SAM TO FIGHT RINER OIL DECISION.

LOCAL oil experts said yesterday that there is not the least doubt that the United States Supreme Court will call on to pass upon the issue involved in the case of the United States versus Mid-west Oil Company, decided for the defendants by Judge Riner, in the Federal District Court at Cheyenne, Wyo., as told in yesterday's Times. The only question is as to whether this particular case will be appealed or whether the fight will be made on the one that was filed in the United States Court in Los Angeles some months since. The latter directly involves more valuable interests and is the first of a series of suits along the same line to be instituted in California. United States District Attorney McCormick, who was called to Cheyenne to aid Asst. Atty.-Gen. Knaebel in the argument, has been at work on the complaint for some months. The preparation of these suits is the result of a suit pending, shows the government's intention of fighting the case to the end. B. D. Townsend, director of the government land cases during the Taft administration, is counting on the government in the California case.

The issue in the California and Wyoming cases are the same. In September, 1909, President Taft ordered vast tracts of California, Utah and Wyoming lands, classified as oil lands, to be made of lands for power sites, forest reserves, military reservations and a number of ill-defined and unspecified purposes.

Lawyers differed greatly as to the legality of this action and Congress the following year passed the Pickett bill, declaring the withdrawal legal and authorizing such sale to future.

TO BUILD FIRE 'NEATH THE POT.

Rose Back from Paso Robles
Wednesday; Action Due.

Civil Service Commission's
Stated for Shake-up.

Next Mayor's Clans Gather
Tomorrow Night.

With the return of Mayor-elect Rose from Paso Robles today there will be a "perking up" all along the political line, and a renewal of slat-making which will know no surcease until the new administration is firmly seated in the saddle, and the important appointments under the new executive's control have been parcelled out.

About all that is definitely known is that Sebastian is to stay and that "Franklin" Henderson and "High-ton" Graham are to go. Secretary to the Mayor Shively will remain with Mayor Rose for a few weeks to familiarize him with the routine of the office. Then he is slated to return to the Chief of Police, whence Alexander picked him after George Baker Anderson's meteoric flight across the page of recent municipal history.

Who will be Rose's permanent secretary is a perplexing question in the breast of more than one rising young politician. P. P. O'Brien, clerk of the Rose Police Court, has been mentioned as a possible successor. O'Brien, who was a campaign wheel-horse, is slated for something better—probably the Tax Collectorship.

Lou Guernsey has been mentioned because of his intimate knowledge of local conditions. Harry Chamberlain, who was press agent during the campaign, a reformer newspaper man, and present attorney-at-law, and C. M. Moran of San Pedro are among the possibilities.

FOR THE HARBOR.

Should there be a change in the personnel of the Harbor Commission, Morgan would have a good look-in for the secretaryship. He knows the harbor, is also an ex-newspaper man and was valuable to the Rose Campaign Committee during the election struggle. It is said that Woodman and Gordon continue to constitute a majority of the board. It is improbable that Secretary Watson will be retained in a position of influence to the satisfaction of the present board.

It is still an open question whether Mayor Alexander will attempt to fill the vacancy existing on this board before he goes out of office. President Woodman believes that the best of the appointment belongs to the incoming Mayor. If the appointment goes over H. S. McCullum may get the job, but Woodman believes that a \$4000 job at present in the custody of Leslie R. Hewitt.

CIVIL SERVICE REFORM.

The Civil Service Commission is presently struggling to "shut up" with Dr. John R. Haynes probably among the earliest officers of the present administration who will be at the helm "before" the new Mayor. The identity of the City Prosecutor is still in doubt. Ray Nimmo, incumbent, is likely to "stick along" for a while longer.

The Mayor-elect will resume his place upon the police bench today and dispose of a number of cases pending in his personal consideration. He expects to have his calendar cleared by the end of the week, but his resignation will not be effective, in all probability, until July 1, when his successor, to be appointed by the Board of Supervisors, will take over the office.

If the Mayor-elect before inauguration on July 7 will be devoted to Justice Rose to familiarizing himself with the duties of his new office and outlining his policy and administration.

By the time the new Council is ready to organize the report of the Grouping Commission will be ready and the task of apportioning to each member one-ninth of the oversight of municipal departments will be taken up. There is considerable planning and prognosticating over the identity of the president of the Council. The favorites are still Whiffen and Belkouski, but the names of a number of other members will vote for either they will insist upon knowing certain things about committee appointments and the not improbable that a "promising" dark horse may come from behind at the last minute.

The Speakers' Committee of the Rose campaign will give a dinner tomorrow evening at the Hollenbeck Hotel for retrospect and horoscope. The invitations are signed by H. S. McCullum, chairman, and L. V. Swiggett, secretary. It is expected that Mayor-elect Rose will be present and speak.

CHARGE IS DISPROVEN.

Los Angeles Real Estate Dealer Discharged on Larceny by Embellishment Charge in Illinois.

Dispatches received from the East yesterday announce that John T. Hinson, real estate dealer, No. 2484 Stephenson avenue, has been cleared of a charge of embellishment at Mt. Vernon, Ill. In a transfer two years ago of ranch property located at Car-Mentis Station, near this city, for the capital stock of a pressed brick plant at Mt. Vernon, Hinson acted as agent, and took part of the stock of the new company in payment of his commission. He also became secretary and treasurer of the company, and went to the Illinois courts to secure a deed to the land with power of attorney from the majority stockholder, to operate and manage the plant. Acting under this authority, he said, he sold off some of the debts of the company, contracted while the deals were making.

The business of the plant did not come up to expectations, and Hinson decided to shut down, but was persuaded to run the place for a while longer, although labor was scarce and the plant was losing money. He remained on the ground until a mortgage on the property was about to be foreclosed, when he decided he could do nothing more toward keeping the works in operation, and left for his home in this city.

In the subsequent tangle of labor and other claims, it was sought to show that Hinson was guilty of irregularities, but an indictment, first for embellishment, and then that was abandoned, a second one for larceny by embellishment was made, but Hinson was discharged on request of the prosecuting witness, who claimed that his secured and unpaid salary as manager more than offsets all claims which were made against him.

THE ACID TEST
BRIGHT'S DISEASE
10 grammes Fierce Acid.
10 grammes Citric Acid.
Watered to make 1 litre.
Equal parts of this reagent and specimen from case of Bright's Disease in test tube will, in 24 hours, show the percentage of albumen. Put the patient on Fultons' Renal Compound. Test every few days for twenty days and you will now to a certainty whether the albumen is decreasing or not. (As the albumen decreases the microscope commonly shows casts to be disappearing.) Thus that "Fulton's Renal Compound" lessens the amount of albumen and permits recovery in every case of Bright's Disease no one can deny. Fierce Acid is taken from ten to twenty days begin to show.)
Fulton's Renal Compound is a mild infusion with no harmful effects. It is taken in a bottle. Its action being on Renal degeneration prescriptions do not conflict. Commonly gets recoveries alone where there is fair heart and recuperative power.
Failure admitted in chronic cases of Bright's Disease. Relative of the "Fulton's Renal Compound" is taken to themselves and the patients to put to the test. Fulton's Renal Compound is sold at drug stores.
Investigations into the curability of Bright's Disease write to:
F. Fulton, 1000 Broadway, New York.

Guardians of Millions.
(Continued from First Page.)
tion and annual consultation for twenty-six years has accomplished almost as much toward making the train dispatcher infallible and the traveler safe.
"The association is an important educational agency. It has made its members thoughtful men and they are continually studying the problem of handling trains rapidly and safely. The double order system has reduced the danger and lessened the liability of collisions. The introduction of the telephone system of transmitting orders makes for speed and safety. It may be harder work for the dispatcher.
GREAT TRAINING SCHOOL.
"Nearly all the changes in the code in the past ten years have been made at the suggestion of the association. Its members are thoughtful men, who realize their responsibility and who have the courage to meet it squarely. From its ranks have come a great many important railroad executives, general managers and vice-presidents of great systems. Their training as dispatchers and the connection with the organization helped them to climb.
The most important matter to come before the convention will be the election of officers, discussion of train rules, amendments to the constitution and papers on the use of the telephone in train dispatching. Hugh McPhee, regarded as an exceptionally well-informed on the lines of the code, has been asked to prepare and read a paper on the subject at one of the meetings. About half of the railroads of the country are said to have the telephone to some extent, and the dispatchers believe it will grow in favor because of the greater rapidity with which orders can be transmitted. In the opinion of leading members of the association the introduction of the double order system and the self-training of the men who transmit the orders, have been the chief factors in eliminating errors and collisions which occur on the lines. The double order system was in vogue, even though the volume of business was much smaller.
Having reduced their work to as near mechanical perfection as possible, the members of the association have endeavored to still further promote efficiency by studying the personal equation. In giving an emergency order the dispatcher not only considers time, distance, relative speed of trains and grades, but he figures on the men who are to execute the orders. He knows their habits, their efficiency are their aim. To accomplish this they strive to be self-confident and assured, and never worried.

MONEY ON THE MOVE.
Savings Bank Gets Cash and Safe Deposit Securities Safely Into New Quarters.
Heavily guarded by phinclothesmen, the cash and securities of the California Savings Bank were safely transferred yesterday from Fifth and Broadway to their new quarters at the southeast corner of Fourth and Spring, just across the German-American Savings Bank. Some of the money, including the removal of the twelve steel vault door, was done last night before last. The safety deposit boxes were removed in five sections. Because of their weight this was one of the most difficult features of the job.
President M. P. Snyder and Cashier E. E. Nichols personally supervised the transfer. The transfer will be open and ready for business at the usual hour this morning.
The bank started ten years ago at Fifth and Broadway, under the management of the same men who now compose its directorate, M. P. Snyder, Charles Yale, F. H. Nichols, A. W. Rhoades, Warren Gillette, James A. Fosbury, James V. Baldwin, D. K. Traut, G. W. E. A. Montgomery and J. B. Millard.
The new quarters will give the bank eight times its former floor space. A foreign steamship agent in charge of D. F. Robertson will be added, and beginning today the safe deposit vault will be kept open from 8 a.m. to 6 p.m.

POSAM WORKS
WONDERS ON
AFFECTED SKIN
To Poslam, the perfect skin remedy, many thousands owe their present freedom from unsightly skin disfigurements. These are troubles not to be endured but to be cured by Poslam. And Poslam will do the work if anything will, because of its marvelous healing power.
Take any case of eczema, acne, itch, salt rheum, piles, scalp-ache, etc., however stubborn, and Poslam stops the itching as soon as applied, bringing immediate relief and comfort. If any skin difficulty besets you, try Poslam NOW and prove its merit.
POSAM SOAP, used daily for toilet and bath, makes every cleansing operation a double measure of healthfulness to the skin. Incomparable in its benefits to tender skin, particularly to infants.
All druggists sell Poslam (price 25 cents). For free samples, write to the Emergency Laboratories, 32 West 25th street, New York City.

[Special Correspondence of The Times]

SANTA MARIA, June 12.—The

long-continued season of dullness in

oil affairs seems to be drawing to a

close. Men who have been idle for

some time are again put to work in

the fields, and plans for new opera-

tions are formulated. The predicted

season of good times in the oil business

seems at hand. One of the foremost

ecological experts stated, incidentally

the other day, that he believed 1918

will see California's oil industry in bet-

ter shape than it has ever been. He

predicted a veritable boom, as well as

the opening up of new territory.

Already the latter part of his prog-

nostication is on the way toward ful-

fillment. A company has been organ-

ized at Maricopa, under the title of

the Cuyama Valley Oil Company, cap-

italized at \$1,000,000, and operations

in the vast Cuyama Valley will be

started at once. The site of this pros-

pective well is about twenty-five miles

from proven territory, and probably

on the north side of the valley. The

incorporators of the new company are

Joe Carroll, J. D. Mosher, H. D. Elliott,

Jesse Richardson and R. R. Lucas,

nearly all Maricopa business men.

The Cuyama Valley lies directly in

a northwesterly and southeasterly line

between the San Joaquin and Santa

Maria fields. The writer spent a few

days there last year and was greatly

impressed with the possibilities appar-

ently extant in that region. Unlike a

number of other districts, there seems

to have been very little escape of oil

anywhere. The formations point to

the presence of oil, and one large out-

"A Food--" Declares Dr. Wiley

THE eminent pure food expert, Dr. Harvey W. Wiley, former chief of the U.S. Bureau of Chemistry, and world famous as an authority on foods, has declared beer "A veritable food product."

Other men of eminence in the medical and scientific world also pronounce beer a nutritive beverage and advise the use of moderate quantities of a pure, well aged brew like

Maier's Select Beer

Extra Pale

Pasteur, one of the world's most eminent scientists, earnestly advocated the use of beer in moderation.

Dr. F. W. Pavy, Fellow of the Royal College of Physicians, London, England, declares: "Beer is a refreshing exhilarating nutritive. A light beer well flavored with the hop, is calculated to promote digestion and may be looked upon as constituting one of the most wholesome of the alcoholic class of beverages."

Most doctors agree that beer is far better for you than tea or coffee. Order a case today and drink it for lunch and dinner regularly. If your dealer won't supply you, we will.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

BURGLAR HAS CLOSE SHAVE.

Pasadenan Discovers Thief Operating in Residence.

Rev. Matt Hughes Preaches Baccalaureate Sermon.

Komical Knights Preparing for Celebration.

BY DIRECT WIRE TO THE TIMES.

PASADENA, June 16.—[Exclusive Dispatch.]

George W. Collis, a well known local jeweler, was unsuccessful last night with a ruse by which he attempted to catch a burglar whom he found rummaging one of the rooms of his house.

As he and his wife and daughter returned home in their automobile shortly after 9 o'clock they noticed that the electric light in one of the bedrooms was turned on. Looking through a window, they saw a man in a dark suit and hat, who was standing in the front door and going to the room of the burglar. Collis saw the man and burst upon the thief holding out his hand as if he held a revolver and commanding him to stop.

Instead of allowing himself to be captured in this manner, the burglar broke and ran, escaping from the back door, which he pried open with a small nickel-plated hammer that he dropped in his flight. As he left the house the chase was taken up by Ingwell Davidson and a patrolman.

He is described by Collis as five feet ten inches tall, smooth shaven and dressed in dark clothing. He was wearing a dark suit and a dark hat. He was carrying a small bag in his hand. He was seen running away from the house.

He is described by Collis as five feet ten inches tall, smooth shaven and dressed in dark clothing. He was wearing a dark suit and a dark hat. He was carrying a small bag in his hand. He was seen running away from the house.

Conducted by
Mrs. Bertha Haffner-Ginger

Cooking as a Fine Art.

FOR WOMEN
HOMEKEEPERS.
FASCINATING TALK ON A FASCINATING ART.Open House and Free Lessons
Three Days in the Week, on Mondays, Wednesdays and Fridays, in Afternoon, Second Floor New "Times" Building.

BY ALMA WHITAKER.

After another jubilantly successful

week just ended in the cooking school, Mrs. Haffner-Ginger intends to surpass even her own standards this week. The programme just teems with irresistible items and the promise of that valuable knowledge which every good housewife knows is power. Last week we learned how to cook Virginia ham as few of us had ever cooked it before. We were introduced to a series of sublime cakes that could tempt the very angels back to earth. We saw the most alluring biscuits materialize under our fascinated gaze, and we were introduced to a large variety of new and seductive salads. Fish day found our knowledge and appetites stirred to

unwonted yearnings, and there were few of us who did not feel that our status in society had been raised effectively, our interests widened and our charms increased by attendance at Mrs. Haffner-Ginger's entrancing lectures and demonstrations.

En Casserole.

Today begins another fascinating week. The cult of the casserole dish is still a mystery to many a housewife and yet it is one of the most savory, most economical and most easy forms of cooking. Not to own a casserole dish is far and away more serious than not owning an ostrich plume.

So this afternoon at 3:30 o'clock Mrs. Haffner-Ginger will introduce us to the casserole and all its joys. One of its most desirable attributes is its power to make the cheapest cuts of meat tender and to preserve every last ounce of nourishment and flavor. A tough old cockerel, when cooked in a casserole, is in fact, there are endless ways of utilizing the advantages of a casserole dish and Mrs. Haffner-Ginger stands prepared to show us most of them.

The Excursion.

Then tomorrow comes the excursion to the Globe Flour Mills for which very special preparations have been made. Two hundred earnest housewives will board the special cars provided at First and Broadway at 10 o'clock a.m. They will be conveyed to the Globe Flour Mills where a reception and luncheon will take place and they will be shown the inner secrets of the great milling house. Just why Globe Flour pays such an important part in the life of the community will be made apparent and the wonderful process by which the wheat becomes the finest brand of flour will be demonstrated.

The Fruit Canning.

Wednesday afternoon's lecture is devoted to fruit canning, which means fruit preserving in its many forms. The last time Mrs. Haffner-Ginger lectured and demonstrated on this subject the auditorium was not half large enough to hold her audience and the crowds were sitting on window sills and on the edges of partitions. Even the housekeeper who insists that she hates cooking, thank you, and prefers to occupy her time in many other ways, usually has a weakness for preserving fruit. It is the one thing that we all do, and all want to do well. For alas, notwithstanding the universal taste for fruit and jam, it takes the skilled cook to do the thing successfully. There is a best way to do everything and unless one learns it in regard to fruit making a day's work is spoiled and much good material wasted.

Mrs. Haffner-Ginger has studied the subject with all her enlightened knowledge, and can tell us all the tricks by which our fruits and jellies can be relied upon to do us credit. Vegetables, too, will receive the lady-cook's attention and there will be no excuse whatever for anyone of us to remain ignorant of the latest and best processes for making larders.

* Government Land Conservation.
If you intend discussing government land, there is a time like the present, a desirable relic from among those columns in the "Government Land" section.

FOR WOMEN AND MEN.

Facts, Features and Fancies.

BY OLIVE GRAY.

DAILY BEAUTY HINT: If you are one of those so unfortunate as to be too tall—and there are many such—while you are awaiting the effects of that improving lotion which you adopt for "filling out"—you may with good results wear a certain kind of brassiere which will lend a better appearance to your blouses.

"If I had my way," said the sensible woman, "I would have a commission to see that homes conformed to a regulation—not as to the expenditure of money, but as to artistic effect." I think she saw a small cottage, costing but a few hundred dollars, actually improves the neighborhood, by the good taste of its lines and its surroundings, while many a mansion is a blot upon the landscape.

"I believe you are right," I said, "but who would pass upon this? How could we manage to get together a commission?" "Just as easily as we can get together any other commission," she interrupted. "There are people of good taste and artistic judgment in every city and locality. These would be selected or appointed to the work."

"Yes, I'm," I slowly acquiesced, "but they might not suit you or me. I have seen some of the hats and the clothes which real good judges of art are guilty of carrying around, and I certainly would hate to have those people select my hats or my gowns, and it might be as bad about having them choose our houses."

Seeing that I was fast losing caste with my friend, I hastened to remark: "But I do think—certainly—that there should be an artistic standard of building rather than a money standard."

Linens for Less.
One of the girls who is embroidering for herself linen frocks after the designs which are so popular this season, was jubilant the other day when I met her, over the discovery of a shop where she could get real Irish linens in every possible shade, and of great width, for much less than she had been paying elsewhere.

Novel Braided Mats.
Big enough for a good-sized room and just the thing for use in the summer cottage at beach or mountain resort, are these rugs of braided straw. They are made "round and round" after the style of the old-time rag rug which our grandmothers used to make and which are again so very popular to use with antique furniture. I saw a collection of these new and old straw "rugs" run in one of the big Broadway furniture houses.

A Truly Dutch Truly Wind Mill.
In one of the Broadway stores which is making a specialty of a certain kind of chocolate, there is a Dutch wind mill of wood with which actually turn and seem to be accomplishing something.

There is a fat Dutch (doll) maid with wooden shoes, who seems to be an exponent of the food qualities of chocolate.

What Is That Shrub?
If you know what that vase full of blossoms is, you know more than I do and more than does the artist who placed the flowers in that beautiful vase. "They are from some kind of rare shrub," said he in response to my inquiry as I went into that jewelry house to inquire about their extraordinary window decoration, "but I do not know its name, nor anything about it botanically." There are apples similar to the cones upon a pine tree, which, as they unfold become flaming scarlet silken tassels tipped with tiny dots of gold. If you know the name or the origin of this charming flower, I shall be glad to hear about it.

"Fleet Feet"
"Fleet foot shoes," this is the name given by a local firm to those shoes which are now so popular—the kind having lower soles of rubber.

There is an entire fleet foot family.

Opens Like a Book.
If you have used the old-fashioned kind of food chopper, you know what a bother it is to clean it after using. The new kind, which is being demonstrated in one of the large Broadway house-furnishing houses, opens like a book, and it is easy to clean the two halves when they are open.

To Accompany Them.
There are "so different" crocheted booties to accompany those wee kimonos, each having a uniquely crocheted chrysanthemum upon its tiny toe.

Coast. Balsac is interested in the coffee industry in Colombia and is connected with a leading firm of importers in New York. "When the canal is opened," he said, "coffee will be consigned to this coast in shipload lots. Planters and importers are undertaking to deliver the product directly from the producer to the roaster or distributor. This will cut the price down some. The Brazilian tax, when eliminated, will be another factor in making coffee cheaper.

The price of coffee in this country is far too high now. There is no good reason why it cannot be brought away down. It only costs about 3 cents a pound to produce it. The difference between that figure and the price you pay is excessive."

Balsac says the annual crop is worth about \$150,000,000, of which Brazil produces \$150,000,000. He has visited Chicago, New Orleans and other cities and will stay on the coast long enough to familiarize himself with local conditions with a view to arranging for direct shipments to be sold at a much lower price than now prevails.

Worth Digging.
EARTH AT FIVE CENTS A POUND.
GOLD IN GRASS ROOTS AND NO "KEEP OFF" SIGNS.

San Juan Basin, in which Los Angeles investors are heavily interested. Scene of Important Strike Vouched for by General Agent of the Denver and Rio Grande.

General Passenger and Ticket Agent Wadleigh of the Denver and Rio Grande is sponsor for a "grass-root" mine strike, \$99.99 of the yellow stuff to the ton, and one foot down from the blue grass in Conejos county, Colorado, adjacent to the San Juan Basin, in which many Angelenos are interested.

Wadleigh is also willing sponsor for stories of towns that ain't today and tomorrow, are making application for postoffice facilities. Last year for stories of towns that ain't today and tomorrow, are making application for postoffice facilities. Last year for stories of towns that ain't today and tomorrow, are making application for postoffice facilities.

CAMP FOR YOUNG GIRLS.
Y.W.C.A. Soon to Open Headquarters on Swiss. Well-Different Groups to be Accommodated.

The third annual Y.W.C.A. camp for girls will be opened July 1 in the mountain about Swiss's camp. Young girls will occupy the camp during July, after which older girls will be given accommodations there.

School girls, especially those who later will attend summer school, will be given the preference at the camp the first week in July. The Camp Fire Girls, of which there are about seventy-five employed in department stores, are planning to be at the camp the third and fourth weeks in July.

The girls will go on various jaunts, study camp craft and nature lore and try to enjoy to the fullest outdoor life. Each group will spend one day in the wilds where the girls will cook over a camp fire, build a shelter of boughs and meet nature face to face.

A payment of \$2 a week will include all expenses at the camp. The campers will be instructed to provide themselves with heavy walking shoes, bloomers, middie blouses and sweaters and to take their clothing to the camp in a bag rather than in a valise. Parties will be taken to the camp on Saturdays and Mondays.

COFFEE TO BE CHEAPER.
Middleman and Brazilian Tax to Be Eliminated to Accomplish the Results.

That the retail price of coffee can be substantially lowered by eliminating some of the middlemen and reducing the tax imposed by the government of Brazil, is the opinion of Richard Balsac of Colombia, and New York, who with L. D. McDowell of New York, arrived in this city yesterday to study conditions on the

of its most desirable attributes is its power to make the cheapest cuts of meat tender and to preserve every last ounce of nourishment and flavor. A tough old cockerel, when cooked in a casserole, is in fact, there are endless ways of utilizing the advantages of a casserole dish and Mrs. Haffner-Ginger stands prepared to show us most of them.

There is a fat Dutch (doll) maid with wooden shoes, who seems to be an exponent of the food qualities of chocolate.

What Is That Shrub?
If you know what that vase full of blossoms is, you know more than I do and more than does the artist who placed the flowers in that beautiful vase. "They are from some kind of rare shrub," said he in response to my inquiry as I went into that jewelry house to inquire about their extraordinary window decoration, "but I do not know its name, nor anything about it botanically." There are apples similar to the cones upon a pine tree, which, as they unfold become flaming scarlet silken tassels tipped with tiny dots of gold. If you know the name or the origin of this charming flower, I shall be glad to hear about it.

"Fleet Feet"
"Fleet foot shoes," this is the name given by a local firm to those shoes which are now so popular—the kind having lower soles of rubber.

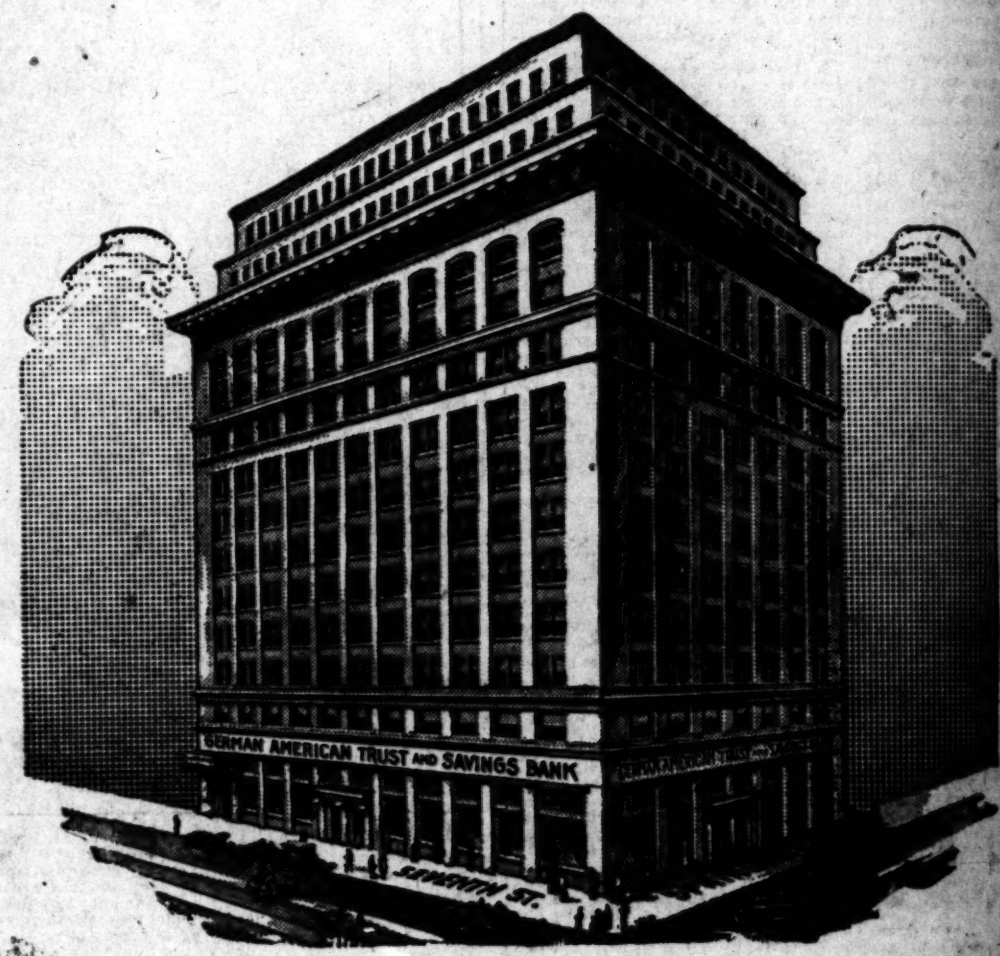

There is an entire fleet foot family.

Opens Like a Book.
If you have used the old-fashioned kind of food chopper, you know what a bother it is to clean it after using. The new kind, which is being demonstrated in one of the large Broadway house-furnishing houses, opens like a book, and it is easy to clean the two halves when they are open.

To Accompany Them.
There are "so different" crocheted booties to accompany those wee kimonos, each having a uniquely crocheted chrysanthemum upon its tiny toe.

The latest for babies.

When you see them, you will agree with me I am sure, that there never was a garment for babies so pretty as this. It is the very newest importation of that interesting oriental house where there is always something prettier and more original than before. These are very short kimono jackets of crepe de chine, embroidered in French knots in the self shade. Upon each tiny garment, at one side

The Bank With The Efficient Service

German American

Trust and Savings Bank

Now at Spring & 7th Sts.

OUR spacious new Banking Rooms, with their ultra modern equipment enable us to give Depositors and Customers a many-sided Banking Service of positive efficiency.

In our former location at Spring and Fourth Streets we were laboring under difficulties—over-crowded in Customers Lobby and Working Departments alike.

Our Efficiency ideals have been very high and have been well carried out, considering conditions.

NOW WE WILL POSITIVELY BE ABLE TO DELIVER EFFICIENCY IN EVERY DEPARTMENT.

More than thirty thousand square feet of floor space—one hundred and twenty experienced Employees—every modern feature in equipment that ensures speedy, accurate service to the Public—perfect ventilation—soft, effective indirect lighting—privacy for Customers in consultation—commodious rest and retiring room for Women—comforts and advantages for Employees which make for increased efficiency—most modern Safe Deposit and equipment in Los Angeles, with superior service—completely equipped Steamship Department—safe and commodious elevator service.

FALLACY OF INFATUATION.

Master of the House Latest Morosco's Production.

Principal Characters Are Well Impersonated.

Problem Play With an Expected Conclusion.

BY HECTOR ALLIOT.

Playwrights in every country have found that what may be termed "the dangerous age of fifty" is the most fruitful soil to cultivate. The "Master of the House," which had its first stock production at the Theatre yesterday, is a clever exploitation of man's phase of the dangerous age.

He is not better nor worse than we are; in mental and physical emotions they are singularly the same. Alar James, in search of a new drama, has adapted from the German a play from the subtle and sensitive point of view.

While in the translation and transposing the "Master of the House" reveals many of the universal human emotions, the play has lost somewhat of its original because our audience is one that is not so easily won over by the emotional appeal of the play.

But, the Hoffman, who is emotional, weak and effeminate, she permits love to her father with the young man or position of the master.

INFATUATION.

of its original force and significance, because our attitude of mind is not the one that the original dramatist desired to satisfy.

Here and everywhere are Frederick Hoffmann, who have, in the intense modern whirl of business, considered their home lives as conventional appendages to their financial struggles and victories.

In every city, the type of Anna, his wife, is common enough. It is that of the woman who is satisfied to be housekeeper, the mother of the flock and nothing else.

The Annae have not read Madame Recamier's memoirs, wherein they might have learned philosophy of that illustrious lady: "When men do not any longer turn to look at me when I pass, it is time that I should assist a little Mother Nature," nor the axioms of the ancient dowager Duchess of Warwick on matrimony: "A woman may be all that a wife should be, but it is to the end of time she does not remain in her mistress, somebody else will."

Darning socks is an admirable virtue, but it should not blind a good and true mother and wife to the danger of introducing into her household a "betina," young and charming as a companion for the opposite sex.

In this case male flesh is weak, as in the play of tomorrow, the "Mistress of the House" the feminine might be shown to be fully as unreliable.

Bettina, the heroine, enters the Hoffman home as a governess, shy, emotional, with all the appeal of the weak and clinging vine.

She permits Harry, the son, to make love to her only to let him aside for the father when she discovers that the young man will be without money or position if he marries her.

The master of the house is at last shown to be a man of some sense.

(Continued on Fourth Page.)

JACKSON AND KLING LEAD MAJOR LEAGUES.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO BUREAU OF THE TIMES, June 15.—(Special Dispatch.) Joe Jackson of the Cleveland Americans has supplanted the great Ty Cobb as the leading batsman of the American league, having a percentage of 44.5 to Cobb's 43.5.

In the older league Johnny Kling of Cincinnati still leads by a very small margin over Hyatt of Pittsburgh. In club batting Cleveland leads the Americans and St. Louis the Nationals, while the figures show the Philadelphia to be the best fielders in the American League and St. Louis in the Nationals.

Charles LeDoux.

Los Angeles! Tous mes respects!
Je regrette de vous faire savoir que je vais être obligé de tanner la crosse de votre illustre fils, Eddie Campbell.

LITTLE LE DOUX, FRENCH BANTAM CHAMP, IS HERE.

BY AD G. WADDELL.

"COMMENT vous Portes-vous?" That's what a small party of Frenchmen said to Little LeDoux, the French bantam-weight champion, as he stepped off the train last night accompanied by his manager, Frank Galvin, and Joe Smith, his trainer.

"Très bien," replied the little fighter, as he lifted his straw hat and picked up his travel-scattered suit case plastered with many foreign posters. "It fait beau temps."

"He says he feels very well and it is fine weather," announced his manager, for the benefit of those present who could not make the French chatter. The manager was permanently engaged as an interpreter.

LeDoux held conversation with his manager.

"He says he wants to see some cowboys and Indians."

The little Frenchman made a lot of motions, like a big leasure pitcher winding up; and then stuck two fingers up in the air. Again Galvin enlightened the public.

"He says he saw a lot of jack rabbits while he was on the train and wants to go hunting so he can shoot one when he is jumping in the air."

"Has he ever fought twenty rounds?" This was asked in English.

The manager launched forth on a line of German. LeDoux speaks four languages but is not sure of his United States talk yet.

"He says you will have to excuse him," translated Galvin. "He is sorry, he trains for twenty rounds but if he knocks the opposing gentleman out and the fight don't go

BAD REPORTS OF RIVERS.

Joe Said to Be Neglecting His Training.

Ragging at Frisco Resorts at Small Hours.

Says He Will Now Go to Work Faithfully.

BY BERT C. SMITH.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, June 15.—(Exclusive Dispatch.) Joe Rivers, matched to fight Willie Ritchie, lightweight championship of the world on July Fourth, seems to have yielded to the bright lights of San Francisco.

Early Saturday morning Rivers, with a party of friends, was seen in one of the beach resorts ragging at a furious pace. According to prominent sporting writers of this city, Joe was drinking beer but was not under the influence of liquor. He is severely criticized for laying himself open to censure.

Late last night Joe was lounging in the corridor of one of the large hotels here. He explained that he was preparing to leave for his training camp today. His excuse for not retiring earlier was that he has not commenced training.

While Joe was drinking and dancing Willie Ritchie was sound asleep at his training camp in Lake county at the home of Manager Nolan. For seven days while Rivers has been "doing the beach resorts," Ritchie has been in active training. The sports here are at a loss to explain the delay on the part of the Los Angeles fighter to start active training.

Ritchie has never taken a drink in his life. He does not smoke. His condition, according to a physician who examined him today, is perfect.

At noon today Rivers left for his training camp. He did not seem to have suffered much from alleged brief trips along the promenade path. His condition appears to be good.

When asked why he had not started to train Rivers said it would be no easy feat for him to make the weight that he had nothing to do but light work for a week. He then expects to do hard work for another week and taper off for the first three days in July.

While Rivers has been idling his time away, Ritchie has been pounding the punching bag, throwing the medicine ball and tramping over the hills. As a result the dopsters tonight pick Ritchie to win by a knockout. Before Rivers arrived in San Francisco even the sports in the bay city gave him an even break.

Should the fighters step into the ring tomorrow the odds would be 10 to 1 in favor of Ritchie. The San Francisco backers are overjoyed at the condition of their favorite and are confident that the fight will be finished by a knockout before the fifteenth round.

LOS ANGELES MONEY.

The strong backing of a prominent Los Angeles man, however, sent several of the San Francisco men to cover this afternoon. When odds of 10 to 1 were quoted on Ritchie the man from the South at once posted \$100, but it was covered. There is said to be plenty of money in sight at such odds and this fact is said to mean that Ritchie will not rule better than a 15 to 1 choice.

"Don't worry, I'll train," said Joe today before leaving for the training quarters. "I'll be there in the dark skin of the Mexican. His friends argue that he has profited by experience and that he will spend the next two weeks in careful preparation for the fight that means so much to him.

Marked Rivers in the preparation of other fights showed in the dark skin of the Mexican. His friends argue that he has profited by experience and that he will spend the next two weeks in careful preparation for the fight that means so much to him.

BAUM BLANKS WOLVES IN AFTERNOON BATTLE.

Takes Revenge on Arellanes, Who Won from Him on Friday—Second Battle Is in Contrast to Wozy Morning Affair, Which Sacramento Wins, 6 to 3—Series Goes to Visitors.

BY HARRY A. WILLIAMS.

THIS yarn is half joy and half sorrow.

The Tigers finished the series as they started it—with a victory—but there were several packages of anguish crowded into the intervening days, and Sacramento went home with five games out of the eight played. It's worth five games to get rid of them.

In the morning at Venice it took the Wolves less than three innings to knock Lou Drueke off the Tiger pay roll. After they had cracked the Texan for five runs in the third, during which he gave an exhibition of wildness seldom seen in a civilized community, Hogan advised him to pack up. Sacramento took the game, a wozy two-and-a-half-hour combat, made doubly agonizing by a total of fourteen walks, by a score of 5 to 2.

In marked contrast to this, the afternoon game was fast, featured by brilliant play and went to the Tigers, 1 to 0.

Spider Baum, beaten by Frank Arellanes on Friday, had his revenge. Baum was invincible, impenetrable and possible a few other things while the knowledge that he allowed but three hits as against four off Baum was

the only glory that he was able to nurse to his heaving bosom.

Two of these hits in the first inning bracketed with a bit of brilliant work on the bases by that rising young star, Walter Carlisle, gave the Tigers their big ace almost before the afternoon was fairly warm.

YOUNG REACHES THIRD.

After that the Tigers were never in imminent peril of being headed. Sacramento made its best bid in the first inning, when Young reached third on his own single and a couple of outs. He was left stranded.

Not until the ninth did another alien get past first. The usually reliable Hoop came near milking the beans in that round with a wild heave over first, putting Young on second. Two were out and Lewis made it three with a demure fly to O'Rourke.

Carlisle tore off the joy lid with a wholesome crack to center in the first inning. This stung the haughty Spaniard to the marrow, and he took it out on Ulf Patsy O'Rourke, who fanned. Bayless picked out center as a likely spot and planted the ball there for one base. Moran dared Carlisle to try and take third on the hit, and Walter didn't accept the challenge.

STEWART MAY SUCCEED TO LOU DRUKE'S SHOES.

Hogan Releases Former Giant and Considers Advantages of Re-signing Stewart—Says, However, that It Is Up to President Maier, Could Now Use the Former Tiger to Advantage.

By HARRY A. WILLIAMS.

THAT fatal falling, inability to "get over," so frequently referred to by Cy Mackin, the Dumb Ducky, has cut short the career of Lou Druke as a Tiger.

Hogan yesterday informed the former Giant that he would have no further use for his services, and Druke, for the second time within a month, finds himself a free agent.

It is possible that Harry Stewart, recently released by the Tigers, will be re-signed, as there is now room for another player on the Venice pay-roll. Stewart was released only because the player limit rule made it necessary to get rid of one man, and it was felt at that time that Druke should be retained for a further inspection. The way most of the pitchers are going addition to the staff.

"We are badly up against it for good pitching right now," said Hogan, "and it is possible that he will be re-signed. He was released by President Maier, however, and it will be necessary for me to discuss the matter with him before taking action. Mr. Maier will return from the North in a day or two."

Druke was released by Sacramento a little more than a month ago, and offered his services to Hogan. He showed so much stuff that it was decided to give him a trial, and the move seemed justified when he won for the Tigers his first time out, holding Portland to four hits.

Lack of control is his one failing. When he has this he is practically unbeatable. If he has as much stuff as Lou I would get out behind the bat and hit him every morning and evening until I hit him three times out of four.

Seems a pity to see such pitching running to seed because of inability to hit the bull's-eye.

Angels vs. Tigers Next.

A batch of trouble between the Tigers and Angels is scheduled to start here tomorrow, and will go off as primed, if the Angels can make the jump here from Portland in time. They are here on a hasty south, but whether they get here in time to open tomorrow afternoon depends on the connections they make in Oakland.

Ferguson to keep in wire touch with the Angels, and tonight Andy expects to have definite information regarding their probable south. Meanwhile, an eager and palpitating public should try and possess its soul in patience.

Both Generals Conscientious.

The brace taken by the Tigers yesterday afternoon served to encourage Hogan, and if it is an indication that they are permanently caught their stride, he expects to give the Angels a tough argument.

Henry Berry is also optimistic in a quiet way.

"I don't believe in claiming any series in advance," said he. "It is easy to make claims, but you can't always make good on them. But just bank on it, that the Angels will be fighting to increase their lead."

Three Series From Portland.

The Berry band has been bowling along at a consistent clip, and the work of the club has shown it to be a perfectly balanced baseball machine. Los Angeles has now won seven series, tied one and lost three. San Francisco is the only club which it has not defeated, but the Seals will be forced to stop submitting, as they did a good turn by taking five out of seven from Oakland—something that they haven't done many times in the memory of the present generation—while Los Angeles was lurching the Beavers three times in five tries.

COUNTRY CLUB GOSSIP.

BY ALMA WHITTAKER.

ONE hundred and thirty-seven golf teams, each containing eight fustling, hopeful hearts, will compete on the links of their own clubs against par for their course, in the Tom Morris memorial trophy competition today. This is the most important team event in this country for golfers and the honor attached to holding the trophy carries with it any amount of license as to golf bumpiness and general superciliousness.

We know this because the Los Angeles team holds it at present, although it may only be theirs for a few hours longer. For a whole year the splendid trophy has adorned the entrance of their clubhouse and their chests have swelled with just pride every time they passed it.

Norman Macbeth, their captain, won the gold medal for the best individual score of 1 up which would have entitled him to carry his nose several inches higher than he does had he been so inclined. But the trophy was won with a collective score of 40 down, which does not so much signify that Los Angeles is greater as that the other teams were less.

The Los Angeles Team.

This year the personnel of the team is the same as last with the one exception of R. D. Lapham, who supplants Winsor Walton. It includes Norman Macbeth, captain; E. S. Armstrong, Judge, Fredrickson, R. D. Lapham, Frank H. Edwards, Jack Jevne, John W. Wilson and George H. Schneider.

Jevne returned a week ago from his European jaunts, where I expect he has sampled all the famous links. Much may therefore be expected of him. It is a very strong team and gloriously self-confident as to its ability to keep what it holds. It is again the premier team for the Southern California League trophy and has enjoyed a victorious career both individually and collectively throughout the season. Macbeth has won all the local championship honors, and each of the others have won distinction in various tournaments and departments of the game.

The Other Teams.

But both the San Gabriel and Annandale Country Clubs carry heavy teams, too, and are equally hopeful if not as bumptious. H. N. H. Woodcock, captain, has been very encouraging and his men with special gifts and things recently with the good and in view. His men will include, besides the "talent force" behind the Tigers, Gene Doyle, a strategic metaher in order to accomplish his purpose.

"He is to the Tigers what the Rock of Gibraltar is to England," said Mr. Doyle, being a native of Ireland, should know.

That Cold, Gray Dawn.

Have just discovered why the attendance is not prolific at the Venice course. It is not due to lack of population or inability to appreciate the greatest sport ever, but a disaster for being disturbed by the raucous clang of the alarm clock.

Along about Saturday night and Sunday morning, that "early to bed, early to rise" stuff promulgated by H. Franklin does not appeal to the people of Venice and their visitors. While 10:15 a. m. would not be regarded as early, according to the schedule in force on the farm, it seems outrageous to those who have been going up the mountainside the night before.

At least, that is the explanation placed on the rather limited attendance by Charles Thatcher, and Mr. Thatcher, being president of the Venice Racquet Club, ought to know. It is feared that the Venetians do not fully appreciate their blessings. There are many cities with a population of 100,000 or more that have never been accorded the luxury of a class AA bell team.

VARSITY EIGHT IN HOME STRETCH.

(BY DEWEY WICKS TO THE TIMES.)

POUGHKEEPSIE (N. Y.) June 15. [Exclusive Dispatch.] The University of Washington varsity eight began its last week of training for the intercollegiate regatta next Saturday, hopeful that it will be among the first three when the leaders slip under the bridge for the last mile of the race.

The Washington crew is in the finest possible condition and Coach Conbar has no fear that they will be unable to give the full course. The other crews live in special quarters, but the Washington oarsmen have a camp of half a dozen tents on the bluff overlooking the river and the only time they spend indoors is when they have their meals. Princeton University, which does not row in the Poughkeepsie race, offered the Seattle crew a challenge for the four-oared race, but Conbar has decided to use the Cornell four.

The Sweepstakes.

David Barry won the sweepstakes at Beverly by 2 up on 10 handicaps; F. N. Conbar, second with 1 up on 6 handicaps, and R. J. Cash, Jr., third with 3 down on 6 handicaps. Match play against par, as usual.

A. A. French won the sweepstakes at Annandale with a medal score of 71.

HECK MOVES UP.

CHICAGO, June 15.—(By A. P. Night Wire.) Catcher Heckinger of the Chicago club of the National League was sold today to the Brooklyn club. The terms of the sale were not announced. Heckinger came to Chicago from the Racine club of the Wisconsin-Illinois league.

Can This Be True?

STEWART MAY SUCCEED TO LOU DRUKE'S SHOES.

Hogan Releases Former Giant and Considers Advantages of Re-signing Stewart—Says, However, that It Is Up to President Maier—Could Now Use the Former Tiger to Advantage.

BY HARRY A. WILLIAMS.

THAT fatal falling, inability to "get over," so frequently referred to by Cy Parkin, the Dumb Ducky, has cut short the career of Lou Druke as a Tiger.

Hogan yesterday informed the former Giant that he would have no further use for his services, and Druke, for the second time within a month, finds himself a free agent.

It is possible that Harry Stewart, recently released by the Tigers, will be re-signed, as there is now room for another player on the Venice pay-roll. Stewart was released only because the player had made it necessary to get rid of one man, and it was felt at that time that Druke should be retained for a further inspection. The way most of the pitchers are going now, Stewart would be a welcome addition to the staff.

"We are badly up against it for good pitching right now," said Hap. "It is possible that he will be re-signed. He was released by President Maier, however, and it will be necessary for me to discuss the matter with him before taking action. Mr. Maier will return from the North in a day or two."

Druke was released by Sacramento a little more than a month ago, and offered his services to Hogan. He showed so much stuff that it was decided to give him a trial, and the more seemed justified when he won for the Tigers his first time out, holding Portland to four hits and one run.

Lack of control is his one failing. When he has this he is practically uncatchable. If he had as much stuff as he has, and if he had the control to back it up, he would be a real find.

Harry Berry has instructed Andy Ferguson to keep in wire touch with the Angels, and tonight Andy expects to have definite information regarding their progress south. Meantime, an excited and impatient public should try and possess its soul in patience.

Both Generals Confident.

The brace taken by the Tigers yesterday afternoon served to encourage Hogan, and it is an indication that they have permanently caught their stride, he expects to give the Angels a tough argument.

Harry Berry is also optimistic in a quiet way.

"I don't believe in claiming any victory in advance," said he. "It is easy to make claims, but you can't always make good on them. But just as it is, that the Angels will be fighting to increase their lead."

Three Series From Portland.

The Berry band has been bowling along at a consistent clip, and the fact that the club has shown it to be a perfectly balanced baseball machine, Los Angeles has now won seven series, tied one and lost three. San Francisco is the only club which it has not defeated, but the Beale will be forgiven for not submitting, as they did a good turn by taking five out of seven from Oakland—something that they haven't done many times in the memory of the present generation—while Los Angeles was lapping the Beavers three times in five tries.

The Angels seem to have the Mojave meditation on McCredie's men. Three times they have taken them down the line. Los Angeles made almost a clean sweep of the first series, winning four, tying one and losing one through rain. McCredie's clan then came south, and was sent home with a measly two games out of seven. You all know what happened up in Portland last week.

Berry had expected to get one of the two games left over from the first series played off in Portland during the present trip north, but not only was this impossible, but the Angels

COUNTRY CLUB GOSSIP.

BY ALMA WHITTAKER.

NE hundred and thirty-seven golf teams, each containing eight flustered, hopeful hearts, will compete on the links of their own clubs against par for their courses, in the Tom Morris memorial trophy competition today. This is the most important team event in this country for golfers and the honor attached to holding the trophy carries with it any amount of license as to golf bumpkinness and general superciliousness.

We know this because the Los Angeles team holds it at present, although it may only be theirs for a few hours longer. For a whole year the splendid trophy has adorned the entrance of their clubhouse and their chests have swelled with just pride every time they have won it.

Norman Macbeth, their captain, won the gold medal for the best individual score of 1 up, which would have entitled him to carry it home several inches higher than he does had he been so inclined. But the trophy was won with a collective score of 40 down, which does not so much signify that Los Angeles is greater as that the other teams were less.

The Los Angeles Team.

This year the personnel of the team is the same as last with the one exception of R. D. Leppan, who supplants Winsor Walton. It includes Norman Macbeth, captain; E. E. Armstrong, Judge; Frederickson, R. D. Leppan, Frank H. Edwards, Jack Jevns, John W. Wilson and George H. Schneider.

Jevns returned a week ago from his European sojourn, where I expect he has sampled all the famous links. Much may therefore be expected of him. He is a very strong team, and gloriously self-confident as to its ability to keep what it holds. It is again the premier team in the Southern California League trophy and has enjoyed a victorious career both individually and collectively throughout the season. Macbeth has won all the local championship honors, and each of the others have won distinction in various tournaments and departments of the game.

The Other Teams.

But both the San Gabriel and Annandale Country Clubs have good teams, too, and are equally hopeful if not as bumptious. H. N. H. Woodcock, captain, has been ably encouraging his men with special caps and things recently with the good end in view. His men will include, besides himself, Conde Jones, R. L. Tatum, Frank Wadsworth, George Wadsworth, A. C. Scates, W. M. Cole and Charles Alkire.

The Annandale team consists of E. R. Williams, captain; E. N. Wright, A. A. French, J. V. Elliot, Paul P. Delea, W. L. Hall, Armine Brand and A. H. Brady. Quite a strong team, we will be seen, but on the team, by the fact that they are minus several of their star players who return East for the summer. Carlton Wright was not old enough to be on the team, but really deserved a place, for the boy has been making the Annandale course in 77's and 78's lately.

The Week End Golf.

There were sweepstakes at both the Los Angeles and Annandale clubs, and the winners in the team contest at San Gabriel likewise, the semi-finals were reached in the president's cup contest at Beverly, which is still going on.

The semi-finals at Beverly are H. P. Taylor, who defeated R. H. Ingram quite definitely by 7 up and 6 who has been selected by many backers as the winner of the tournament. He has 18 handicaps, which helps considerably when one has acquired, say, 8 handicaps in the upward progress through the tournament.

Then there is Thomas C. Bundy (do you know what the C. stands for?) who simply trod on poor Albert Crutcher, defeating him by 19 up and 8—never let him win a hole. Bundy, too, is a long-handicap golf enthusiast of prodigious promise—24 strokes was the encouragement meted out to him in the far-off days when the tournament began—and he has made the most of his opportunities. John W. Wilson defeated H. S. Brimhall by 3 up and 6. R. P. Parsons defeated E. H. Bagby at the nineteenth hole.

Taylor and Bundy will now fight it out—a good match this should be between the two men who have gained the most progress during the tournament. Wilson must concede Bundy 6 strokes. Wilson will play Parsons and next week-end will decide the ultimate winners. Judge Frederickson won the last of these large tournaments, and I remember Lee A. Phillips, who is now such a very important person in the city, won another last year after only six months' golf apprenticeship.

The Sweepstakes.

David Berry won the sweepstakes at Beverly by 3 up on 10 handicap; F. N. Coffin came second with 1 up on 6 handicap, and R. J. Cash, Jr., third with 3 down on 5 handicap. Match play against par, as usual.

A. A. French won the sweepstakes at Annandale with a medal score of 71—

BLANC'S NAG AGAIN WINS DERBY RACE.

(BY CARRIE AND A. P. TO THE TIMES.)

PARIS, June 15.—The Prix du Jockey Club, the French Derby, was run at the Chantilly course today and won by Edmond Blanc's Dager, a bay colt by Flying Fox, outsider in the betting. M. L. Olry-Roche's Tiger, who quitted second, with M. E. De Saint-Alary's Bruiser third.

The race was witnessed by one of the most brilliant assemblages of years, which included many prominent Americans.

W. E. Vanderbilt's Frippier and Madame N. G. Cheremetieff's Albanis fell. H. B. Duryea's Blarney, August Belmont's Vulcan VI, and J. E. Widener's Roi de France were also in the race.

The Prix du Jockey Club is a stake for three year olds at one and a half miles. It was worth this year \$37,000.

HECKER MOVES UP.

CHICAGO, June 15.—[By A. P.] Night Wire Catcher Heckler, of the Chicago club of the National league was sold today to the Brooklyn club. The terms of the sale were not announced. Heckler came to Chicago from the Racine club of the Wisconsin-Illinois league.
